# ***THE DAMODARR STORY & MISSION***

**Rooted in Nature, Committed to Your Growth.**

- **Our Story:** Founded on the principles of integrity and expertise, Damodarr Global Venture LLP bridges the fertile abundance of India with the exacting demands of the global wellness market. We are not just suppliers; we are custodians of ancient botanical wisdom and partners in modern innovation.
- **Our Mission:** To sustainably deliver the purest, most potent botanical ingredients from certified Indian origins to brands worldwide, empowering them to create products that enhance health, well-being, and sensory delight.
- **Our Vision:** To be the most trusted global partner for natural ingredients, recognized for uncompromising quality, ethical sourcing, and transformative partnerships.

## **Our Promise:**

- **Purity:** Ingredients free from adulterants, tested for over 250+ contaminants.
- **Potency:** Optimized sourcing and processing to preserve bioactive compounds.
- **Provenance:** 100% traceable to its source farm or sustainable wild collection.
- **Partnership:** Dedicated support from technical consultation to seamless logistics.

# OUR PILLARS OF EXCELLENCE

The Foundation of Trust in Every Ingredient.

## Sustainable & Ethical Sourcing 🌱

We work directly with a network of certified organic farms and expert foragers across India. Our fair-trade partnerships ensure community upliftment and promote regenerative agricultural practices, protecting biodiversity for future generations.

## Advanced Processing & Preservation ⚙️

From controlled-temperature drying and precision milling to state-of-the-art spray drying, our GMP-compliant facilities are designed to lock in nature's goodness. We tailor our process to each botanical, maximizing nutrient retention, flavor, and color.

## Rigorous Quality & Safety 🧪

Every batch is validated in our in-house NABL-accredited laboratory. We test beyond compliance for pesticides, heavy metals, microbial load, aflatoxins, and key marker compounds. A detailed Certificate of Analysis (CoA) is your guarantee of safety and potency.

## Global Compliance & Logistics 🌍

We navigate international regulations so you don't have to. Our ingredients meet FDA, EU, FSANZ, and GCC standards. With certifications like USDA/NOP, EU Organic, and Kosher/Halal, coupled with expert export documentation, we ensure your order arrives seamlessly, anywhere.

Contact our technical team for customized samples, formulation support, and competitive pricing.

# Aloe Vera (*Aloe barbadensis miller*)

## Product Description

Sourced from the pristine farms of India, our Aloe Vera is derived from the inner leaf gel of mature plants, meticulously processed to preserve its legendary soothing and hydrating properties. A cornerstone of both ancient wellness traditions and modern clean-label formulations, it is rich in polysaccharides, vitamins, and enzymes. The global demand for Aloe Vera is driven by its unparalleled versatility in natural health and beauty, serving as a foundational ingredient for skin regeneration, digestive health supplements, and functional beverages that promote internal cleansing and nutrient absorption.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Supports digestive health, detoxification, and immune function in capsules, juices, and shots.
- **Food & Beverage:** Natural stabilizer and functional ingredient in health drinks, yogurts, and wellness waters.
- **Cosmetic/Personal Care:** Key hydrating, soothing, and healing agent in gels, creams, lotions, and after-sun products.
- **Pharmaceutical:** Base for topical formulations targeting burns, wounds, and skin irritations.

## Specifications

- **Botanical Name:** *Aloe barbadensis miller*
- **Part Used:** Inner Leaf Gel (Decolorized & Dehydrated)
- **Form Available:** Powder
- **Appearance/Color/Odor/Taste:** Fine off-white to light tan powder; characteristic mild odor; bland taste.
- **Moisture Content:** <10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO Project Verified.
- **Testing Parameters:** Comprehensive testing for pesticides, heavy metals (Pb, Cd, As, Hg), total plate count, yeast & mold, E. coli, Salmonella, and aflatoxins—all compliant with FDA and EU regulatory limits.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119039

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg multi-layer kraft paper bags with food-grade HDPE liners.
- **Retail:** 100g, 250g, 500g stand-up resealable mylar pouches or compostable PLA pouches.
- **Private Label:** Full custom branding available on pouches, glass jars, or tins. MOQ applies.
- **Compliance:** All materials are food-contact safe (FDA 21 CFR / EU 10/2011), tamper-evident, and moisture-proof.

## Origin & Sustainability

- 100% sourced from certified organic farms in India.
- Ethically cultivated with sustainable agricultural practices.
- Full traceability from farm to finished product, ensuring purity and potency.

# Alfalfa (*Medicago sativa*)

## Product Description

Windson Organics presents premium Alfalfa, the "father of all foods," sustainably harvested from deep-rooted plants cultivated in India's fertile plains. This nutrient-dense botanical is a powerhouse of chlorophyll, vitamins (A, C, E, K), minerals (calcium, potassium, iron), and digestive enzymes. Celebrated globally as a classic superfood, it supports overall vitality, alkaline balance, and detoxification. Its clean, grassy profile makes it a sought-after ingredient for green powders, animal feed supplements, and clean-label wellness products targeting holistic nutrition and daily nourishment.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Base for superfood blends, chlorophyll supplements, and multivitamin formulations for overall vitality.
- **Food & Beverage:** Nutrient booster for green smoothies, juices, and health shots.
- **Animal Nutrition:** Premium additive for horse feed and small animal supplements.
- **Cosmetic:** Used in skincare for its purifying and anti-inflammatory properties.

## Specifications

- **Botanical Name:** *Medicago sativa*
- **Part Used:** Leaf
- **Form Available:** Powder, Fine Cut
- **Appearance/Color/Odor/Taste:** Fine green powder or cut leaves; vibrant green color; characteristic grassy odor; mild, vegetal taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Pesticides, heavy metals, microbial limits, and aflatoxins tested to meet FDA/EU standards.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12149000

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg multi-layer kraft paper bags with food-grade HDPE liners.
- **Retail:** 50g/100g/250g resealable kraft or mylar pouches.
- **Private Label:** Custom branding available. MOQ applies.
- **Compliance:** Food-contact safe, tamper-evident, moisture-proof packaging.

## Origin & Sustainability

- 100% sourced from India.
- Sustainably cultivated, promoting soil health.
- Complete traceability from seed to package.

# Amla Without Seed (*Emblica officinalis*)

## Product Description

Our premium Amla Powder, meticulously processed from deseeded Indian Gooseberry fruits, delivers the pure, potent benefits of one of Ayurveda's most revered Rasayanas. Sourced from organic orchards, it is carefully dried at low temperatures to protect its exceptionally high natural Vitamin C content and antioxidant polyphenols. This adaptogen is a global superstar in immune and beauty-from-within formulations, supporting collagen synthesis, radiant skin, and resilient health. Its tart, astringent profile is ideal for dietary supplements, functional beverages, and natural cosmetic applications demanding high antioxidant potency.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Potent antioxidant for immune support, anti-aging formulas, and hair/nail health capsules.
- **Food & Beverage:** Natural Vitamin C booster and acidulant in health drinks, jams, and functional confectionery.
- **Cosmetic:** Key ingredient in hair oils, anti-aging serums, and brightening face masks.
- **Traditional Medicine:** Core component of Chyawanprash and various Ayurvedic formulations.

## Specifications

- **Botanical Name:** *Emblica officinalis* (*Phyllanthus emblica*)
- **Part Used:** Fruit (Deseeded)
- **Form Available:** Powder
- **Appearance/Color/Odor/Taste:** Fine, light brown to greyish-tan powder; characteristic sour odor; strongly sour and astringent taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Ascorbic acid assay, pesticide residues, heavy metals, microbial count, aflatoxins—all within stringent limits.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 08134010

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg multi-layer kraft paper bags with HDPE liners.
- **Retail:** 100g/250g/500g resealable pouches or glass jars.
- **Private Label:** Custom branding and formulation blending available.
- **Compliance:** All packaging meets international food safety standards.

## Origin & Sustainability

- 100% sourced from certified organic farms in India.
- Ethically harvested, supporting rural communities.
- Fully traceable supply chain ensuring purity and consistent quality.

# ASHWAGANDHA (*Withania somnifera*)

## Product Description

Damodarr Global Venture LLP offers premium Ashwagandha root, the quintessential adaptogen, cultivated in the mineral-rich soils of India. Our roots are harvested at peak potency and processed to preserve their full spectrum of bioactive withanolides. Renowned for its ability to help the body resist physical and mental stress, it is a globally demanded ingredient for modern wellness solutions. It supports cognitive function, promotes restful sleep, enhances vitality, and helps maintain balanced cortisol levels, making it indispensable for stress-resilience supplements, sports nutrition, and holistic health formulations.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** For stress relief (adaptogen), cognitive support, sleep aids, sports nutrition, and thyroid support.
- **Food & Beverage:** Functional ingredient in calming lattes, protein powders, and wellness shots.
- **Cosmetic:** Used in formulations for skin rejuvenation and haircare due to its antioxidant properties.
- **Traditional Medicine:** Fundamental herb in Ayurvedic Rasayana therapy.

## Specifications

- **Botanical Name:** *Withania somnifera*
- **Part Used:** Root
- **Form Available:** Powder, Fine Cut, Coarse Cut, Whole Root
- **Appearance/Color/Odor/Taste:** Fine tan to brown powder or root pieces; earthy odor; bitter, earthy taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Withanolide content (HPLC), pesticides, heavy metals, microbes, aflatoxins. Compliant with USP/EP monographs.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25/50 kg bags or boxes with HDPE liners.
- **Retail:** 50g-1kg pouches, tins, or capsules.
- **Private Label:** Custom extracts (KSM-66®, Sensoril® equivalents), blends, and branding.
- **Compliance:** Packaging ensures stability and compliance for global markets.

## Origin & Sustainability

- 100% sourced from sustainable Indian farms.
- Cultivated using regenerative practices.
- Full traceability and ethical sourcing guarantee.

# BACOPA / BRAHMI POWDER (Bacopa monnieri)

## Product Description

Sourced from pristine wetlands of India, our Brahmi is a celebrated nootropic herb, revered in Ayurveda as a Medhya Rasayana for over 3,000 years. This carefully dried and milled aerial parts powder is standardized for key bioactive bacosides, compounds clinically studied for supporting memory, focus, and cognitive processing. It calms the mind while enhancing mental clarity, making it a premier ingredient for brain health supplements, stress-formulas, and functional beverages targeted at students, professionals, and an aging global population seeking natural cognitive support.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Cognitive enhancement, memory support, anxiety relief, ADHD management, and general nervous system tonic.
- **Food & Beverage:** Added to focus-enhancing drink mixes, herbal teas, and functional chocolates.
- **Cosmetic:** Used in hair serums for purported scalp health and hair growth stimulation.
- **Traditional Medicine:** Primary herb for mental acuity in Ayurvedic practice.

## Specifications

- **Botanical Name:** Bacopa monnieri
- **Part Used:** Aerial Parts
- **Form Available:** Powder
- **Appearance/Color/Odor/Taste:** Fine olive-green to brown powder; characteristic earthy odor; bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Bacoside content (min. 5-20% as required), pesticides, heavy metals, microbial limits.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg kraft paper bags with HDPE liners.
- **Retail:** 100g/250g resealable pouches.
- **Private Label:** Available as standardized extract powder (e.g., 20% Bacosides).
- **Compliance:** High-barrier packaging to protect bioactive compounds.

## Origin & Sustainability

- 100% sourced from sustainable wild collections and organic farms in India.
- Ethically harvested to ensure species regeneration.
- Fully traceable from collection to final product.

# Burdock Root (*Arctium lappa*)

## Product Description

Damodarr Global Venture LLP presents pure Burdock Root, a potent cleansing herb deeply rooted in both Eastern and Western traditional medicine. Sourced from mature plants cultivated in India, this root is valued for its rich content of inulin (a prebiotic fiber), antioxidants, and bitter principles. It is globally recognized as a premier herb for supporting skin health, gentle detoxification, and digestive wellness through its prebiotic action. Its earthy, slightly sweet flavor profile also makes it a unique ingredient in functional food and beverage formulations aimed at holistic cleansing and gut health.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Blood purification, skin health (eczema, acne), digestive support (prebiotic), and gentle detoxification.
- **Food & Beverage:** Functional ingredient in detox teas, broths, and root-based coffee alternatives.
- **Cosmetic:** Key component in creams, lotions, and soaps for problematic skin.
- **Traditional Medicine:** Used in Decoctions for "blood cleansing" and lymphatic support.

## Specifications

- **Botanical Name:** *Arctium lappa*
- **Part Used:** Root
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Light brown root pieces or powder; earthy odor; sweet, earthy, and slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Pesticides, heavy metals, microbial count, aflatoxins. Inulin content verified.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg multi-layer kraft paper bags.
- **Retail:** 50g/100g resealable pouches for tea blends.
- **Private Label:** Available for custom tea formulations and supplement blends.
- **Compliance:** Packaging ensures protection from moisture and contamination.

## Origin & Sustainability

- 100% sourced from cultivated organic farms in India.
- Sustainably harvested to protect wild populations.
- Traceable from farm to finished product.

# Dandelion Leaf & Root (Taraxacum officinale)

## Product Description

Harnessing the gentle power of a common weed, our Dandelion Leaf and Root are organic, sun-dried botanicals sourced from clean Indian pastures. The leaf acts as a natural potassium-rich diuretic, while the root is prized for its liver-supportive and digestive bitter properties. This dynamic duo is in high global demand for detoxification protocols, digestive bitters, and as a caffeine-free coffee substitute. A clean-label favorite, it supports kidney function, liver health, and overall vitality, perfectly aligning with trends for gentle, everyday wellness tonics.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Liver detoxification, kidney support (diuretic), digestive bitters, and gentle cleansing programs.
- **Food & Beverage:** Base for detox teas, roasted root coffee substitutes, and salad greens (leaf).
- **Cosmetic:** Used in creams for its purifying and skin-toning properties.
- **Traditional Medicine:** Classic herb for "spring cleaning" and stimulating digestion.

## Specifications

- **Botanical Name:** Taraxacum officinale
- **Part Used:** Leaf and/or Root
- **Form Available:** Cut & Sifted, Powder (specify part)
- **Appearance/Color/Odor/Taste:** Leaf: Green pieces; Root: Brown pieces/powder. Earthy, herbaceous odor. Leaf: Slightly bitter; Root: Bitter, roasted coffee-like when roasted.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Pesticides, heavy metals, microbial limits, ensuring purity from contaminants.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg paper bags for leaf or root.
- **Retail:** 50g/100g tea pouches or blended detox tea offerings.
- **Private Label:** Custom tea blends and supplement formulas.
- **Compliance:** Clean, food-grade packaging for all options.

## Origin & Sustainability

- 100% sourced from certified organic wild-crafting and farms in India.
- Ethically foraged and cultivated, promoting biodiversity.
- Complete supply chain transparency.

# Giloy (*Tinospora cordifolia*)

## Product Description

Damodarr Global Venture LLP brings you Giloy, the revered "Amritavalli" or heavenly vine of Ayurveda, sourced from its native Indian habitat. This adaptogenic stem is celebrated for its powerful immunomodulating and antipyretic properties. Rich in alkaloids like berberine, it is a cornerstone herb for boosting the body's natural defense mechanisms, supporting recovery from illness, and promoting overall vitality. Its global appeal surges as consumers seek natural immune boosters and longevity-promoting adaptogens, making it essential for immunity-focused supplements, wellness shots, and traditional herbal formulations.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Potent immune system modulator, fever reducer (antipyretic), digestive aid, and general adaptogenic tonic.
- **Food & Beverage:** Key ingredient in immunity-boosting juices, teas, and functional beverages.
- **Cosmetic:** Incorporated into skin care for its detoxifying and antioxidant benefits.
- **Traditional Medicine:** Primary herb in Ayurvedic formulations for fever, dengue, and chronic conditions.

## Specifications

- **Botanical Name:** *Tinospora cordifolia*
- **Part Used:** Stem
- **Form Available:** Powder, Fine Cut, Coarse Cut
- **Appearance/Color/Odor/Taste:** Brown powder or cylindrical stem pieces; faint characteristic odor; bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Alkaloid markers, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg multi-layer kraft paper bags.
- **Retail:** 100g/250g resealable pouches.
- **Private Label:** Available as a single herb or in custom immunity blends.
- **Compliance:** Packaging designed to maintain potency and purity.

## Origin & Sustainability

- 100% sourced from sustainable farms and wild collections in India.
- Cultivated with care to preserve its natural habitat.
- Ethically sourced with full traceability.

# Gotukola (Centella asiatica)

## Product Description

Our Gotukola, harvested from lush Indian regions, is a premier botanical for cognitive and skin health, revered in both Ayurveda and Traditional Chinese Medicine. This fine leaf powder is abundant in triterpenoid compounds (asiaticosides, madecassoside) known to support collagen synthesis, wound healing, and mental clarity. Surging in global demand for "brain-boosting" nootropics and clean-beauty actives, it is a dual-purpose ingredient for formulations targeting improved circulation, memory, skin elasticity, and reducing the appearance of scars and fine lines.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Cognitive function, anxiety reduction, venous insufficiency, and wound healing support.
- **Cosmetic:** Anti-aging creams, stretch mark formulations, scar reduction gels, and sensitive skin care for its collagen-stimulating properties.
- **Food & Beverage:** Added to nootropic drink blends and functional teas.
- **Traditional Medicine:** Known as "Brahmi" in some regions, used for meditation and skin vitality.

## Specifications

- **Botanical Name:** Centella asiatica
- **Part Used:** Leaf
- **Form Available:** Powder
- **Appearance/Color/Odor/Taste:** Fine green to greenish-brown powder; mild, characteristic odor; slightly bitter, earthy taste.
- **Moisture Content:**  $\leq 10\%$
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place ( $<25^{\circ}\text{C}$ ) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Triterpenoid content (HPLC), pesticides, heavy metals, microbial limits.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg bags with HDPE liners.
- **Retail:** 50g/100g air-tight pouches for cosmetic or tea use.
- **Private Label:** Available as standardized extract for targeted efficacy.
- **Compliance:** Packaging protects sensitive triterpenoids from degradation.

## Origin & Sustainability

- 100% sourced from organic farms in India.
- Ethically cultivated, ensuring high bioactive content.
- Transparent and sustainable supply chain.

# Gymnema (Gymnema sylvestre)

## Product Description

Sourced from the forests and farms of India, our Gymnema leaf, known as the "sugar destroyer," is a key botanical in metabolic wellness. It contains gymnemic acids, which are known to temporarily suppress the sensation of sweetness on the tongue and support healthy pancreatic function. This makes it a globally sought-after ingredient for dietary supplements targeting healthy blood sugar levels, weight management, and reducing sugar cravings. Its unique properties align perfectly with the growing demand for natural solutions to support metabolic health and balanced lifestyles.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Blood sugar metabolism support, weight management aid, and reducer of sugar cravings.
- **Food & Beverage:** Potential functional ingredient for "diabetic-friendly" food formulations.
- **Herbal Teas:** Component of metabolic health tea blends.
- **Traditional Medicine:** Ayurvedic herb for "Madhumeha" (diabetes).

## Specifications

- **Botanical Name:** Gymnema sylvestre
- **Part Used:** Leaf
- **Form Available:** Powder, Cut & Sifted
- **Appearance/Color/Odor/Taste:** Dark green powder or leaf pieces; characteristic tea-like odor; bitter, astringent taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Gymnemic acid profile, pesticide residues, heavy metals, microbial load.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg kraft paper bags.
- **Retail:** 100g/250g resealable pouches for tea.
- **Private Label:** Available as a standalone ingredient or in metabolic support blends.
- **Compliance:** Secure, moisture-resistant packaging.
- 

## Origin & Sustainability

- 100% sourced from sustainable Indian sources.
- Wild-crafted and cultivated with ecological balance in mind.
- Traceable and ethically harvested.

# Krishna Tulsi (*Ocimum sanctum*)

## Product Description

Damodarr Global Venture LLP offers the sacred Krishna Tulsi, the dark-purple leaved variety of Holy Basil, revered as an "Elixir of Life" in India. Grown organically, this adaptogen is rich in antioxidants like eugenol and exhibits stronger aromatic properties than green varieties. It is globally cherished for its holistic ability to combat physical, chemical, metabolic, and psychological stress through its unique phytonutrient profile. A must-have ingredient for adaptogenic formulations, immune support, respiratory wellness products, and herbal teas promoting resilience and balance in a demanding world.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Adaptogen for stress relief, immune system support, respiratory health, and antioxidant protection.
- **Food & Beverage:** Aromatic base for herbal teas, tulsi-infused honey, and functional beverages.
- **Cosmetic:** Incorporated into skincare for its purifying and anti-aging properties.
- **Traditional/Spiritual:** Used in daily rituals and Ayurvedic formulations for overall wellness.

## Specifications

- **Botanical Name:** *Ocimum sanctum*
- **Part Used:** Leaf
- **Form Available:** Powder, Whole Dry Leaves, Cut & Sifted
- **Appearance/Color/Odor/Taste:** Dark green to purple powder/leaves; strong, clove-like, spicy aroma; pungent, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Eugenol content, total phenolics, pesticides, heavy metals, microbials.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg bags with liners to preserve volatile oils.
- **Retail:** 50g/100g attractive pouches or tea tins.
- **Private Label:** Perfect for branded tea lines and supplement capsules.
- **Compliance:** Aroma-lock packaging to maintain freshness.

## Origin & Sustainability

- 100% sourced from dedicated organic Tulsi farms in India.
- Grown with devotional care and sustainable practices.
- Directly traceable to the farming community.

# Lemon Balm (Melissa officinalis)

## Product Description

Cultivated in the serene gardens of India, our Lemon Balm is a delightful lemon-scented herb from the mint family. Carefully shade-dried to preserve its delicate volatile oils, primarily citronellal and geraniol, it is renowned for its calming, mood-uplifting, and gentle digestive properties. A globally popular herb in the relaxation and sleep aid category, it is a key ingredient for stress-relief teas, natural anxiety supplements, and functional beverages designed to promote tranquility and well-being without drowsiness, fitting the growing demand for natural mood support.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Nervous system relaxant, sleep aid (non-sedative), anxiety relief, and digestive calmativ.
- **Food & Beverage:** Flavorful base for calming herbal teas, infused waters, and gourmet desserts.
- **Cosmetic:** Used in aromatherapy products, bath blends, and soothing skin creams.
- **Traditional Medicine:** Used for centuries to lift spirits and ease tension.

## Specifications

- **Botanical Name:** Melissa officinalis
- **Part Used:** Leaf
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Light green leaf pieces or powder; strong, fresh lemon aroma; mild, lemony, slightly sweet taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile oil content, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg paper bags.
- **Retail:** 50g/100g resealable pouches, perfect for tea.
- **Private Label:** Ideal for custom sleep or relaxation tea blends.
- **Compliance:** Packaging that protects the delicate aroma and color.

## Origin & Sustainability

- 100% sourced from organic Indian farms.
- Sustainably cultivated with natural practices.
- Ethically sourced, ensuring farmer welfare.

# Milk Thistle (*Silybum marianum*)

## Product Description

Damodarr Global Venture LLP offers premium Milk Thistle seed, the globally recognized gold standard for natural liver support. Sourced from robust plants grown in India, our seeds are standardized for their key bioactive complex, silymarin—a powerful antioxidant flavonoid. Silymarin is clinically studied for its hepatoprotective properties, aiding liver cell regeneration and acting as a guardian against toxins. In high demand for detox supplements, liver health formulas, and skincare targeting liver-induced issues, it is an essential ingredient for holistic wellness and longevity protocols.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Liver detoxification and protection, support for liver regeneration, antioxidant defense, and hangover relief formulas.
- **Food & Beverage:** Incorporated into detox teas and functional juices.
- **Cosmetic:** Used in creams for skin conditions like psoriasis, linked to liver function.
- **Traditional Medicine:** Classic herb for treating jaundice and gallbladder disorders.

## Specifications

- **Botanical Name:** *Silybum marianum*
- **Part Used:** Seed
- **Form Available:** Powder (from seeds)
- **Appearance/Color/Odor/Taste:** Light brown to grey powder; mild, oily odor; bland, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Silymarin content (HPLC, typically 2-4%), pesticides, heavy metals, microbials, aflatoxins.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg kraft paper bags with HDPE liners.
- **Retail:** 100g/250g pouches for capsule filling or tea.
- **Private Label:** Available as high-potency extract powder (80% Silymarin).
- **Compliance:** Opaque, sealed packaging to protect sensitive compounds.

## Origin & Sustainability

- 100% sourced from certified organic farms in India.
- Cultivated with sustainable agricultural methods.
- Fully traceable, seed-to-powder process.

# Moringa (Moringa oleifera)

## Product Description

Our Moringa leaf powder, sourced from the "Miracle Tree" cultivated in nutrient-rich Indian soil, is a quintessential superfood of the 21st century. Gently dried and milled, it retains an exceptional density of vitamins, minerals, antioxidants, and complete protein. With its vibrant green color and mild, spinachy taste, it is a global powerhouse for combating malnutrition, boosting energy, and providing clean, plant-based nutrition. Its versatility makes it ideal for green smoothie powders, dietary supplements, functional foods, and natural cosmetics, catering to the health-conscious consumer worldwide.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Nutritional supplementation, energy boost, anti-inflammatory, and antioxidant support.
- **Food & Beverage:** Superfood additive to smoothies, protein bars, soups, and health drinks.
- **Cosmetic:** Used in soaps, hair oils, and skin creams for its nutrient density.
- **Humanitarian/Animal Feed:** Used in nutritional intervention programs and as high-quality fodder.

## Specifications

- **Botanical Name:** Moringa oleifera
- **Part Used:** Leaf
- **Form Available:** Powder, Fine Cut
- **Appearance/Color/Odor/Taste:** Fine vibrant green powder; characteristic vegetal odor; mild, slightly bitter, spinach-like taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Chlorophyll, Vitamin A, protein content, pesticides, heavy metals, microbial load.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119049

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg bags with oxygen barriers.
- **Retail:** 100g/250g/500g resealable pouches (often stand-up).
- **Private Label:** Leading candidate for private-label superfood brands.
- **Compliance:** Packaging designed to preserve color and nutrient integrity.

## Origin & Sustainability

- 100% sourced from partner farms across India.
- Promotes sustainable agroforestry and soil conservation.
- Ethically sourced, providing income for rural communities.

# Nettle (*Urtica dioica*)

## Product Description

Damodarr Global Venture LLP presents Nettle leaf, a potent and nourishing herb harvested from clean, wild areas of India. Once dried, its stinging hairs are deactivated, revealing a treasure trove of minerals (iron, calcium, silica), chlorophyll, and antihistamine properties. A classic spring tonic in European tradition and a growing global superfood, it supports allergy relief, joint health, detoxification, and is a superb nutritive for hair, skin, and nails. Its rich, green, earthy profile makes it perfect for herbal infusions, green powders, and natural wellness formulations.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Natural antihistamine for allergies, joint support (arthritis), nutritive tonic for anemia, and prostate health (root).
- **Food & Beverage:** Cooked as a spinach-like green, or dried for nourishing herbal teas and soups.
- **Cosmetic:** Used in hair rinses for shine and scalp health, and in creams for eczema.
- **Traditional Medicine:** Spring detox and blood-building tonic.

## Specifications

- **Botanical Name:** *Urtica dioica*
- **Part Used:** Leaf (also root available)
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Dark green leaf pieces or powder; characteristic grassy, earthy odor; mild, vegetal, slightly salty taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, FSSAI.
- **Testing Parameters:** Pesticides, heavy metals (esp. from wild sources), microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg paper bags.
- **Retail:** 50g/100g pouches for tea.
- **Private Label:** Excellent for allergy support or nourishing herbal blends.
- **Compliance:** Clean, food-grade packaging.

## Origin & Sustainability

- 100% sourced from certified organic wild collections in India.
- Sustainably foraged to ensure plant population health.
- Traceable to the region of harvest.

# Parsley (*Petroselinum crispum*)

## Product Description

Our air-dried Parsley is sourced from vibrant Indian farms, capturing the fresh, clean, and slightly peppery essence of this ubiquitous culinary herb. Rich in chlorophyll, vitamins (notably K and C), and antioxidants like apigenin, it transcends its role as a garnish to become a functional ingredient for detoxification, freshening breath, and supporting kidney health. The global demand for clean-label, functional herbs positions Parsley as a key ingredient for green food powders, digestive bitters, and natural oral care products, offering both flavor and wellness benefits.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Natural diuretic, kidney support, breath freshener, antioxidant, and anti-inflammatory.
- **Food & Beverage:** Essential seasoning, base for green smoothie powders, and ingredient in detox juices.
- **Cosmetic:** Used in creams for its detoxifying properties and in hair care for scalp health.
- **Culinary:** Classic fresh and dried herb in global cuisines.

## Specifications

- **Botanical Name:** *Petroselinum crispum*
- **Part Used:** Leaf
- **Form Available:** Flakes, Powder
- **Appearance/Color/Odor/Taste:** Dark green flakes or powder; fresh, characteristic parsley aroma; mild, fresh, slightly peppery taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Pesticide residues, heavy metals, microbial limits, color retention.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09109900

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/20 kg cartons or bags.
- **Retail:** 20g/50g small jars or shaker pouches for culinary use.
- **Private Label:** For custom spice blends and green powder formulations.
- **Compliance:** Packaging that preserves color and prevents caking.

## Origin & Sustainability

- 100% sourced from organic farms in India.
- Grown using sustainable irrigation and farming practices.
- Traceable supply chain ensures consistent quality.

# Peppermint (*Mentha piperita*)

## Product Description

Damodarr Global Venture LLP Peppermint is cultivated in the ideal climates of India for high menthol content, then carefully dried to lock in its signature cooling, invigorating aroma and flavor. A global favorite, it is renowned for its ability to soothe digestive discomfort, clear respiratory passages, and refresh the senses. Its high demand spans industries, from herbal teas and confectionery to dietary supplements for IBS relief, natural oral care, and aromatherapy products, making it a versatile and indispensable botanical for health and wellness.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Digestive aid (relieves IBS, bloating, nausea), respiratory decongestant, and mental stimulant.
- **Food & Beverage:** Flavoring for teas, candies, gums, chocolates, and liqueurs.
- **Cosmetic/Personal Care:** Key ingredient in toothpaste, mouthwash, balms, and cooling skincare.
- **Aromatherapy:** Used for mental clarity and headache relief.

## Specifications

- **Botanical Name:** *Mentha piperita*
- **Part Used:** Leaf
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Green leaf pieces or powder; strong, characteristic cooling menthol aroma; cooling, pungent taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Menthol content, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119049

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg bales or bags.
- **Retail:** 50g/100g tea pouches or tin cans.
- **Private Label:** Ideal for branded tea lines, digestive supplements, and confectionery.
- **Compliance:** Aroma-proof packaging is critical.

## Origin & Sustainability

- 100% sourced from expert mint growers in India.
- Sustainable cultivation practices preserve soil and water.
- Direct relationships with farmers ensure quality and ethics.

# Rosemary (Salvia rosmarinus)

## Product Description

Sourced from sun-drenched Indian farms, our Rosemary is a robust, aromatic herb with a distinctive piney fragrance and sharp flavor. It is abundant in antioxidants, notably rosmarinic acid and carnosic acid, making it a powerful natural preservative and cognitive support herb. Globally, it is prized both as a culinary staple and a functional ingredient for memory-enhancing supplements, natural food preservation, and haircare products that stimulate the scalp. Its versatility aligns with trends for clean-label preservation and brain health.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Cognitive function and memory support, antioxidant, and circulatory stimulant.
- **Food & Beverage:** Culinary herb for meats and vegetables; natural antioxidant preservative in oils and fats.
- **Cosmetic:** Stimulant in hair growth formulations, and antioxidant in anti-aging skincare.
- **Traditional Medicine:** Used for improving circulation and memory.

## Specifications

- **Botanical Name:** Salvia rosmarinus (Rosmarinus officinalis)
- **Part Used:** Leaf
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Green needle-like pieces or powder; strong, characteristic piney, camphoraceous odor; warming, slightly bitter, astringent taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile oil content, antioxidant activity (ORAC), pesticides, heavy metals.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09109900

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg cartons or bags.
- **Retail:** 20g/50g jars or pouches for culinary use.
- **Private Label:** For custom spice rubs, supplement blends, and natural preservative mixes.
- **Compliance:** Packaging that protects its potent aroma.

## Origin & Sustainability

- 100% sourced from organic cultivations in India.
- Grown using sustainable agricultural techniques.
- Traceable from farm to finished product.

# Shatavari (*Asparagus racemosus*)

## Product Description

Damodarr Global Venture LLP presents Shatavari, the premier Ayurvedic rejuvenating tonic for women, sourced from the roots of wild-grown plants in India. This adaptogen is revered for its hormone-balancing and nourishing properties, supporting female reproductive health from menstruation to menopause. Rich in saponins, it soothes the digestive tract and acts as a galactagogue. Its global demand is rising with the focus on women's wellness, natural fertility support, and holistic menopause management, making it a cornerstone ingredient for specialized nutraceuticals and wellness teas.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Female reproductive health, hormonal balance, fertility support, lactation aid (galactagogue), and digestive soothe.
- **Food & Beverage:** Added to women's wellness teas, tonics, and functional beverages.
- **Cosmetic:** Occasionally used in skincare for its moisturizing and rejuvenating properties.
- **Traditional Medicine:** Primary "Rasayana" for women in Ayurveda.

## Specifications

- **Botanical Name:** *Asparagus racemosus*
- **Part Used:** Root
- **Form Available:** Powder, Fine Cut
- **Appearance/Color/Odor/Taste:** Creamy-white to light brown powder/root pieces; characteristic sweet odor; sweet, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Saponin content, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg kraft paper bags.
- **Retail:** 100g/250g pouches for capsule filling or decoction.
- **Private Label:** Perfect for women's health supplement lines and tea blends.
- **Compliance:** Hygienic, moisture-proof packaging.

## Origin & Sustainability

- 100% sourced from sustainable wild collections in India.
- Ethically harvested with protocols for species regeneration.
- Traceable to ensure authenticity and sustainability.

# Spearmint (*Mentha spicata*)

## Product Description

Our Spearmint, cultivated in the fertile plains of India, offers a sweeter, more delicate profile compared to peppermint, with lower menthol and higher carvone content. This gently dried herb is celebrated for its digestive benefits, hormone-balancing properties (particularly for androgen-related conditions), and refreshing flavor. A global favorite for herbal teas, culinary applications, and natural oral care, it caters to consumers seeking a milder mint experience and specific wellness benefits related to digestion and hormonal harmony.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Digestive aid, potential support for hormonal balance (e.g., PCOS), and mild antioxidant.
- **Food & Beverage:** Flavoring for teas (notably Moroccan), chewing gum, sauces, and Middle Eastern dishes.
- **Cosmetic/Personal Care:** Used in toothpaste and mouthwash for fresh breath.
- **Culinary:** Preferred mint for many culinary applications due to its sweet note.

## Specifications

- **Botanical Name:** *Mentha spicata*
- **Part Used:** Leaf
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Green leaf pieces or powder; sweet, characteristic spearmint aroma; sweet, mild minty taste without strong cooling.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Carvone content, pesticide residues, heavy metals, microbials.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119049

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg bales or bags.
- **Retail:** 50g/100g tea pouches.
- **Private Label:** Excellent for specialty tea blends and culinary product lines.
- **Compliance:** Packaging that preserves its delicate sweetness.

## Origin & Sustainability

- 100% sourced from dedicated organic farms in India.
- Sustainable water and land management practices.
- Ethically sourced, ensuring fair trade principles.

# Stevia (Stevia rebaudiana)

## Product Description

Damodarr Global Venture LLP offers pure, green-leaf Stevia powder, a natural zero-calorie sweetener sourced from our partner farms in India. This minimally processed powder is derived from the dried leaves of the Stevia plant, containing sweet steviol glycosides (Rebaudioside A). It provides a clean, sugar-free sweetness ideal for health-conscious consumers, diabetics, and keto/low-carb diets. As global demand for natural sugar alternatives skyrockets, our Stevia serves as a key ingredient for dietary supplements, functional beverages, and healthy food product development.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Natural sweetener for diabetic-friendly products, weight management supplements, and sugar-free formulations.
- **Food & Beverage:** Sweetening agent for teas, beverages, yogurts, baked goods (in blends), and confectionery.
- **Personal Care:** Sweetening agent in natural toothpaste and mouthwash.
- **Dietary:** Essential for ketogenic, paleo, and low-glycemic food products.

## Specifications

- **Botanical Name:** Stevia rebaudiana
- **Part Used:** Leaf
- **Form Available:** Powder (Green Leaf)
- **Appearance/Color/Odor/Taste:** Fine green powder; characteristic sweet, slightly licorice-like odor; intensely sweet, with a slight bitter aftertaste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Steviol Glycoside content (HPLC), pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg bags with excellent moisture barriers.
- **Retail:** 50g/100g resealable pouches with mini-scoops.
- **Private Label:** Ideal for private-label sweetener brands and custom food formulations.
- **Compliance:** Critical to prevent moisture absorption and clumping.

## Origin & Sustainability

- 100% sourced from certified organic Stevia farms in India.
- Sustainable farming with a low environmental footprint.
- Traceable from farm to powder, ensuring purity.

# Thyme (Thymus vulgaris)

## Product Description

Our Thyme is sourced from robust plants grown in India, delivering a concentrated aromatic profile rich in the potent compound thymol. This powerful essential oil component grants Thyme its renowned antiseptic, antimicrobial, and expectorant properties. A staple in both the culinary and herbal apothecary worlds, it is globally sought after for respiratory health formulas, natural preservatives, and as a flavorful herb in Mediterranean cuisine. Its versatility makes it essential for immune support supplements, cough syrups, and clean-label food preservation.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Respiratory health (cough, bronchitis), antimicrobial, antioxidant, and immune support.
- **Food & Beverage:** Culinary herb for stocks, sauces, and meats; natural preservative.
- **Cosmetic/Personal Care:** Used in mouthwashes, acne treatments, and natural deodorants for its antiseptic properties.
- **Traditional Medicine:** Classic herb for chest congestion and infections.

## Specifications

- **Botanical Name:** Thymus vulgaris
- **Part Used:** Leaf and Flowering Top
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Small green-grey leaves/powder; strong, aromatic, pungent odor; warm, pungent, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Thymol/Carvacrol content, volatile oil, pesticides, heavy metals, microbials.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09109900

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg cartons or bags.
- **Retail:** 20g/50g jars or pouches for culinary and tea use.
- **Private Label:** For custom respiratory health blends, spice rubs, and natural preservative mixes.
- **Compliance:** Aroma-sealed packaging.

## Origin & Sustainability

- 100% sourced from organic farms in India.
- Grown using eco-friendly practices.
- Fully traceable, ensuring consistent quality and potency.

# Valerian (*Valeriana officinalis*)

## Product Description

**Damodarr Global Venture LLP** offers Valerian root, the most renowned natural sedative in the Western herbal tradition, sourced from mature plants cultivated in India. Its distinct, earthy aroma comes from volatile oils and valerenic acids, compounds that interact with GABA receptors in the brain to promote calm and restful sleep. In high global demand for natural sleep aids and anxiety relief, it is a key ingredient in herbal supplements, nighttime teas, and tinctures targeting insomnia and nervous tension, offering a plant-based alternative to synthetic sleep medications.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Natural sleep aid (non-habit forming), anxiety and stress relief, muscle relaxant, and nervous system sedative.
- **Food & Beverage:** Primary ingredient in "sleepy time" herbal tea blends.
- **Traditional Medicine:** Used for centuries for insomnia, restlessness, and headaches.
- **Note:** Not recommended for daytime use due to sedative effects.

## Specifications

- **Botanical Name:** *Valeriana officinalis*
- **Part Used:** Root
- **Form Available:** Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Light brown root pieces or powder; strong, characteristic earthy, pungent odor (often considered unpleasant); bitter, earthy taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Valerenic acid content, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg kraft paper bags.
- **Retail:** 100g pouches for tea blends (often blended with pleasant-tasting herbs).
- **Private Label:** Core ingredient for private-label sleep supplement lines.
- **Compliance:** Airtight packaging is crucial due to its strong odor.

## Origin & Sustainability

- 100% sourced from cultivated organic farms in India.
- Sustainably farmed with crop rotation.
- Traceable from field to finished product.

# Vana Tulsi (Ocimum gratissimum)

## Product Description

Vana Tulsi, or "Wild Forest Holy Basil," is sourced from its natural habitat and organic farms in India. This variety possesses a strong, camphoraceous aroma and higher concentration of essential oils, particularly eugenol. It is a potent adaptogen with pronounced respiratory and antimicrobial benefits. Highly valued in traditional medicine and growing in global demand for robust respiratory support and immune defense formulations, Vana Tulsi is ideal for therapeutic teas, cough and cold supplements, and natural sanitizing products.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Strong adaptogen, potent respiratory support (cough, cold, asthma), antimicrobial, and fever reducer.
- **Food & Beverage:** Aromatic, medicinal-grade herbal teas.
- **Cosmetic:** Used in soaps and creams for its purifying properties.
- **Traditional Medicine:** Preferred for severe respiratory conditions and fevers.

## Specifications

- **Botanical Name:** Ocimum gratissimum
- **Part Used:** Leaf
- **Form Available:** Powder, Whole Dry Leaves, Cut & Sifted
- **Appearance/Color/Odor/Taste:** Light green leaves/powder; strong, sharp, camphor-like aroma; sharp, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months in original, unopened packaging under recommended conditions.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Eugenol content, total phenolics, pesticides, heavy metals, microbials.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg bags with liners.
- **Retail:** 50g/100g pouches for therapeutic tea.
- **Private Label:** For specialized respiratory or immune support product lines.
- **Compliance:** Packaging must contain its potent aroma.

## Origin & Sustainability

- 100% sourced from wild collections and organic farms in India.
- Wild-crafted sustainably to preserve natural stands.
- Ethically sourced with full traceability.

# Black Pepper (Piper nigrum)

## Product Description

Damodarr Global Venture LLP offers premium Indian Black Pepper, the "King of Spices," sourced from the lush Western Ghats. Our peppercorns are sun-dried to perfection, developing their complex pungency and rich aroma, dominated by the bioactive alkaloid piperine. Beyond its universal culinary role, piperine is globally recognized as a potent bioenhancer, significantly increasing the absorption of other nutrients like curcumin. This dual function makes it indispensable for culinary applications, dietary supplements (especially with turmeric), and functional food formulations seeking enhanced efficacy.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Bioavailability enhancer (piperine), digestive stimulant, antioxidant, and anti-inflammatory.
- **Food & Beverage:** The world's most used spice for seasoning and preservation.
- **Pharmaceutical/Nutraceutical:** Critical component in supplements to increase absorption of active compounds.
- **Traditional Medicine:** Used for digestive issues and as a warming agent.

## Specifications

- **Botanical Name:** Piper nigrum
- **Part Used:** Fruit (Berry)
- **Form Available:** Whole, Cracked, Powder
- **Appearance/Color/Odor/Taste:** Whole: Black, wrinkled berries. Powder: Greyish-black. Strong, characteristic pungent aroma; hot, biting taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 36 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Piperine content (HPLC), pesticide residues, heavy metals, microbial count, moisture, extraneous matter.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09041111

## Packaging Options (Flexible & Custom)

- **Bulk:** 25/50 kg jute or PP bags.
- **Retail:** 100g/200g/500g glass jars, pouches, or grinders.
- **Private Label:** Perfect for private-label spice brands and supplement pre-mixes.
- **Compliance:** Food-grade, moisture-resistant packaging.

## Origin & Sustainability

- 100% sourced from partner estates in Kerala, India.
- Ethically traded, supporting farmer cooperatives.
- Sustainable farming practices are employed.

# Ajwain (Trachyspermum ammi)

## Product Description

Our Ajwain seeds, sourced from dedicated Indian farms, are small but potent, boasting a strong, thymol-dominated aroma and flavor similar to thyme. A staple in Indian cuisine and traditional medicine, they are renowned for their powerful carminative and digestive properties. Globally, they are gaining recognition as a natural remedy for bloating, indigestion, and respiratory congestion. This versatile spice is ideal for culinary spice blends, digestive herbal formulations, and functional foods targeting gastrointestinal wellness.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Powerful digestive aid (carminative, antispasmodic), relieves flatulence and acidity, and provides respiratory relief.
- **Food & Beverage:** Used in Indian breads (paratha), pickles, legumes, and snack seasonings.
- **Traditional Medicine:** A key home remedy for instant relief from indigestion and colds.
- **Home Use:** Often consumed as a simple tea for digestive upset.

## Specifications

- **Botanical Name:** Trachyspermum ammi
- **Part Used:** Seed
- **Form Available:** Whole, Powder
- **Appearance/Color/Odor/Taste:** Small, oval, striated brownish seeds or powder; strong, pungent, thyme-like odor; hot, pungent, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Thymol content (in oil), pesticide residues, heavy metals, microbial count, foreign matter.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09082930

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg PP bags.
- **Retail:** 100g/250g pouches or jars.
- **Private Label:** For custom digestive spice blends and tea formulations.
- **Compliance:** Airtight packaging to preserve volatile oils.

## Origin & Sustainability

- 100% sourced from organic farms in Rajasthan and Gujarat, India.
- Sustainably cultivated with traditional methods.
- Direct sourcing ensures quality and fair pricing.

# Clove (*Syzygium aromaticum*)

## Product Description

Damodarr Global Venture LLP offers whole Clove buds, sourced from aromatic trees in India. These sun-dried flower buds are intensely aromatic and pungent, with a high concentration of eugenol in their volatile oil. Clove is globally prized for its powerful analgesic (especially dental), antiseptic, and antioxidant properties. It is a versatile spice essential for culinary blends, natural oral care products, digestive formulations, and as a source for clove oil and oleoresin in the pharmaceutical and flavor industries.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Natural analgesic (toothache), antiseptic, digestive carminative, and antioxidant.
- **Food & Beverage:** Used in spice blends (garam masala), mulled wines, pickling, and baking.
- **Dental/Pharmaceutical:** Key ingredient in toothpastes, mouthwashes, and temporary fillings.
- **Traditional Medicine:** Used for dental pain, nausea, and as a warming agent.

## Specifications

- **Botanical Name:** *Syzygium aromaticum*
- **Part Used:** Dried Flower Bud
- **Form Available:** Whole, Powder
- **Appearance/Color/Odor/Taste:** Whole: dark brown, nail-shaped buds. Strong, pungent, spicy aroma; hot, pungent, slightly bitter taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 36 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile Oil content (>15%), Eugenol content (>80% of oil), pesticides, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09070000

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg jute or PP bags.
- **Retail:** 50g/100g glass jars or pouches.
- **Private Label:** For custom spice mixes and natural oral care lines.
- **Compliance:** Airtight packaging to preserve volatile oils.

## Origin & Sustainability

- 100% sourced from organic cultivations in South India.
- Sustainable harvesting practices.
- Traceable to the plantation of origin.

# Green Cardamom (Elettaria cardamomum)

## Product Description

Our Green Cardamom, the "Queen of Spices," is sourced from the misty hills of Kerala, India. These small, green pods encase aromatic black seeds with a complex, sweet, floral, and slightly citrusy flavor profile, rich in volatile oil. A symbol of hospitality and a prized global spice, it is essential for flavoring both sweet and savory dishes, premium coffee, and tea. Its digestive and breath-freshening properties also make it a valuable ingredient in wellness teas and natural oral care products, driving demand in gourmet and wellness sectors.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Digestive aid, carminative, breath freshener, and antioxidant.
- **Food & Beverage:** Flavoring for chai, coffee, desserts, curries, and rice dishes (like biryani).
- **Cosmetic/Personal Care:** Used in perfumery and as a breath freshener in chewing gums and mouthwashes.
- **Traditional Medicine:** Used for digestive complaints and to balance other strong herbs.

## Specifications

- **Botanical Name:** Elettaria cardamomum
- **Part Used:** Fruit (Pod and Seeds)
- **Form Available:** Whole Pods, Decorticated Seeds, Powder
- **Appearance/Color/Odor/Taste:** Whole: small, green tri-lobed pods. Seeds: small, black. Intensely aromatic, sweet, floral aroma; warm, sweet, spicy taste.
- **Moisture Content:** ≤ 12% (pods)
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile Oil content, pesticide residues, heavy metals, microbial count, size grading.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09083010

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/25 kg vacuum-packed bags or cartons to retain color and aroma.
- **Retail:** 50g/100g attractive tins or glass jars.
- **Private Label:** Premium product for gourmet spice brands and wellness tea companies.
- **Compliance:** Requires superior barrier packaging to prevent loss of volatiles and color fading.

## Origin & Sustainability

- 100% sourced from accredited organic estates in Kerala, India.
- Grown under shade, promoting biodiversity.
- Ethically traded, ensuring fair wages for plantation workers.

# Coriander (*Coriandrum sativum*)

## Product Description

Damodarr Global Venture LLP offers Coriander seeds, a fundamental spice with a warm, nutty, and subtly citrusy flavor profile, sourced from sun-drenched farms in Rajasthan, India. These dried, mature seeds are a cornerstone of global cuisine, found in curry powders, pickling spices, and sausage seasonings. Beyond culinary use, they are valued in traditional medicine for their digestive and carminative properties. Their mild, versatile flavor and digestive benefits make them a constant, high-demand ingredient for food processors, spice blenders, and wellness tea formulators.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Digestive aid, carminative, and diuretic.
- **Food & Beverage:** Key component of curry powders, garam masala, pickling blends, and meat seasonings worldwide.
- **Beverage:** Flavouring agent in certain gins and liqueurs.
- **Traditional Medicine:** Used to soothe digestive upsets and bloating.

## Specifications

- **Botanical Name:** *Coriandrum sativum*
- **Part Used:** Seed
- **Form Available:** Whole, Powder
- **Appearance/Color/Odor/Taste:** Whole: spherical, beige-yellow seeds. Powder: light brown. Aromatic, sweet, citrusy when crushed; mild, sweet, slightly pungent taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile Oil content, pesticide residues, heavy metals, microbial count, foreign matter.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09092100

## Packaging Options (Flexible & Custom)

- **Bulk:** 25/50 kg jute or PP bags.
- **Retail:** 100g/250g pouches or jars.
- **Private Label:** Essential for any custom spice blend business.
- **Compliance:** Standard food-grade packaging.

## Origin & Sustainability

- 100% sourced from organic farms in Rajasthan and Gujarat, India.
- Cultivated using traditional, low-water methods.
- Direct sourcing model supports farming communities.

# Nutmeg (*Myristica fragrans*)

## Product Description

Our Nutmeg is sourced from the aromatic seeds of trees grown in India, offering a warm, sweet, and slightly pungent flavor with hints of clove and camphor. This prized spice contains myristicin and other volatile oils responsible for its unique profile and traditional uses. A global favorite for baking, cream sauces, and festive drinks, it is also recognized for its calming digestive properties. Its demand remains steady in gourmet food, beverage, and supplement industries seeking its distinctive flavor and gentle carminative effects.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Digestive carminative, sleep aid (in small doses), and cognitive stimulant (in very low doses – note: high doses are toxic).
- **Food & Beverage:** Essential for baking (pies, cakes), cream sauces, sausages, eggnog, and mulled wines.
- **Traditional Medicine:** Used in small amounts for digestive issues and as a relaxant.
- **Note:** Must be used in culinary quantities only.

## Specifications

- **Botanical Name:** *Myristica fragrans*
- **Part Used:** Seed (Kernel)
- **Form Available:** Whole, Powder
- **Appearance/Color/Odor/Taste:** Whole: oval, brown seeds. Powder: brown powder. Warm, sweet, spicy aroma; warm, sweet, slightly bitter taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Whole nuts retain flavor longer. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile oil content, myristicin levels, pesticide residues, heavy metals, microbial count, aflatoxins.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09081100

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg bags or boxes.
- **Retail:** Whole nuts in jars (10-20g), powder in small jars or pouches (20g/50g).
- **Private Label:** For gourmet baking brands and festive beverage mixes.
- **Compliance:** Requires secure packaging due to its potency.

## Origin & Sustainability

- 100% sourced from sustainable cultivations in South India.
- Harvested without harming the tree.
- Ethically sourced through established supply chains.

# Cinnamon (Cinnamomum cassia)

## Product Description

Damodarr Global Venture LLP presents true Cinnamon (Cassia), sourced from the bark of trees grown in India. This warm, sweet, and pungent spice is rich in cinnamaldehyde, the compound responsible for its signature flavor and numerous bioactive properties. A global favorite for both culinary and wellness applications, it is celebrated for supporting healthy blood sugar metabolism, acting as a potent antioxidant, and adding depth to dishes and beverages. Its demand soars in functional foods, baking, and supplements targeting metabolic health.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Supports healthy blood sugar levels, antioxidant, anti-inflammatory, and antimicrobial.
- **Food & Beverage:** Essential for baking, confectionery, chai, mulled wines, and breakfast cereals.
- **Cosmetic:** Used for its warming fragrance in perfumes and its antimicrobial properties in oral care.
- **Traditional Medicine:** Used for digestive issues and warming the body.

## Specifications

- **Botanical Name:** Cinnamomum cassia
- **Part Used:** Bark
- **Form Available:** Whole Quills (sticks), Broken Pieces, Powder
- **Appearance/Color/Odor/Taste:** Reddish-brown quills or powder; sweet, woody, pungent aroma; sweet, warm, aromatic taste.
- **Moisture Content:** ≤ 12% (quills), ≤ 10% (powder)
- **Shelf Life:** 36 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Cinnamaldehyde content, coumarin levels (meets EU limits), pesticides, heavy metals, microbials.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09061910

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg cartons for quills, bags for powder.
- **Retail:** 50g quills in jars, 100g powder in pouches.
- **Private Label:** Ideal for private-label spice brands and metabolic health supplements.
- **Compliance:** Packaging must protect from moisture to prevent caking.

## Origin & Sustainability

- 100% sourced from sustainable cultivations in India.
- Bark is harvested without felling trees, ensuring sustainability.
- Ethically sourced from registered farms.

# Fennel (*Foeniculum vulgare*)

## Product Description

Damodarr Global Venture LLP presents sweet Fennel seeds, cultivated in the fertile fields of India. These aromatic seeds have a distinct licorice-like sweetness, imparted by anethole, their primary volatile compound. Globally cherished as a digestive aid and breath freshener, they are consumed as a post-meal digestive in many cultures. Their sweet flavor makes them versatile for use in culinary dishes, herbal teas, bakery products, and functional beverages targeting digestive wellness and fresh breath, ensuring consistent global demand.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Digestive carminative, relieves bloating and cramps, natural breath freshener, and galactagogue.
- **Food & Beverage:** Used in Italian sausages, Indian curries, breads, herbal teas, and liquors (absinthe).
- **Cosmetic/Personal Care:** Flavoring in natural toothpastes and mouthwashes.
- **Traditional/Culinary:** Chewed raw after meals in many parts of the world for digestion.

## Specifications

- **Botanical Name:** *Foeniculum vulgare*
- **Part Used:** Seed
- **Form Available:** Whole, Powder
- **Appearance/Color/Odor/Taste:** Whole: oblong, greenish-brown seeds. Sweet, aromatic, anise-like odor; sweet, pleasant taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Volatile Oil content (Anethole), pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09096110

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg PP bags.
- **Retail:** 100g/250g resealable pouches, popular for tea.
- **Private Label:** Excellent for digestive tea blends and spice mixes.
- **Compliance:** Standard aroma-protecting packaging.

## Origin & Sustainability

- 100% sourced from organic farms across India.
- Sustainably cultivated with efficient water use.
- Traceable supply chain ensures consistent quality.

# Star Anise (*Illicium verum*)

## Product Description

Our Star Anise is sourced from the star-shaped pericarps of trees grown in India, offering an intensely sweet, licorice-like flavor stronger than fennel or anise seed, due to its high anethole content. A key spice in Asian cuisines and a primary source of shikimic acid (used in pharmaceutical synthesis), it is globally demanded for culinary uses, herbal teas, and the pharmaceutical industry. Its potent antiviral properties and unique flavor profile make it essential for savory dishes, festive beverages, and wellness formulations.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Antiviral properties (source of shikimic acid for Tamiflu), digestive aid, and antioxidant.
- **Food & Beverage:** Essential in Chinese five-spice powder, Vietnamese pho, Indian biryani, and mulled wines.
- **Pharmaceutical:** Industrial extraction of shikimic acid.
- **Traditional Medicine:** Used for coughs, flu, and digestive issues.

## Specifications

- **Botanical Name:** *Illicium verum*
- **Part Used:** Fruit (Star-shaped Pericarp)
- **Form Available:** Whole Stars, Broken Pieces, Powder
- **Appearance/Color/Odor/Taste:** Rust-brown, eight-pointed stars; strong, sweet, licorice-like aroma; sweet, pungent taste.
- **Moisture Content:**  $\leq 12\%$
- **Shelf Life:** 36 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place ( $<25^{\circ}\text{C}$ ) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Anethole/Shikimic acid content (as required), pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09096120

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg cartons or bags.
- **Retail:** 50g/100g attractive glass jars or cellophane bags.
- **Private Label:** For specialty spice blends and wellness tea companies.
- **Compliance:** Packaging should prevent breakage of the delicate stars.

## Origin & Sustainability

- 100% sourced from cultivated trees in Northeast India.
- Sustainably harvested to ensure tree health.
- Traceable from orchard to package.

# Fenugreek (*Trigonella foenum-graecum*)

## Product Description

Damodarr Global Venture LLP offers Fenugreek seeds, a versatile and nutrient-rich spice sourced from the arid regions of Rajasthan, India. These hard, amber-colored seeds have a distinctive maple syrup aroma and a bitter, slightly sweet taste. A staple in Indian cuisine and traditional medicine, they are globally recognized for supporting healthy blood sugar levels, aiding digestion, and acting as a galactagogue. Their unique flavor and functional benefits drive demand in spice blends, dietary supplements, and functional foods for metabolic and maternal health.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Supports healthy blood sugar metabolism, digestive aid, galactagogue (promotes lactation), and libido enhancer (in traditional use).
- **Food & Beverage:** Key in curry powders, pickles, spice pastes, and as a natural maple flavoring.
- **Cosmetic:** Used in hair masks for purported hair growth benefits.
- **Traditional Medicine:** Used for diabetes, digestive issues, and to increase milk supply.

## Specifications

- **Botanical Name:** *Trigonella foenum-graecum*
- **Part Used:** Seed
- **Form Available:** Whole, Powder
- **Appearance/Color/Odor/Taste:** Whole: small, hard, rectangular yellowish-brown seeds. Strong, characteristic maple-like odor; bitter, slightly sweet aftertaste.
- **Moisture Content:**  $\leq 10\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place ( $<25^{\circ}\text{C}$ ) away from direct sunlight. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Saponin content, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09109910

## Packaging Options (Flexible & Custom)

- **Bulk:** 25/50 kg PP bags.
- **Retail:** 200g/500g pouches.
- **Private Label:** For metabolic health supplements, lactation teas, and spice blends.
- **Compliance:** Standard food-grade packaging.

## Origin & Sustainability

- 100% sourced from organic farms in Rajasthan, India.
- Grown as a rotation crop, improving soil nitrogen.
- Direct sourcing supports local farming economies.

# Turmeric (Curcuma longa)

## Product Description

Our Turmeric is sourced from the "Curcuma Capital" of India, where the rhizomes develop their signature vibrant golden-yellow color and high curcuminoid content. This ancient spice and powerful herbal medicine is rich in curcumin, a potent anti-inflammatory and antioxidant compound. A global superfood, its demand is fueled by the wellness industry for joint health, cognitive support, and skin care supplements, as well as its indispensable role as a natural colorant and flavoring agent in food, cosmetics, and textiles.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** Potent anti-inflammatory (for joints), antioxidant, supports cognitive health, and aids digestion.
- **Food & Beverage:** Natural colorant and flavor in curries, mustards, cheeses, and "golden milk" lattes.
- **Cosmetic:** Used in soaps, creams, and face masks for brightening and anti-aging.
- **Traditional Medicine:** A cornerstone of Ayurvedic and Chinese medicine.

## Specifications

- **Botanical Name:** Curcuma longa
- **Part Used:** Rhizome
- **Form Available:** Whole "Fingers," Slices, Powder
- **Appearance/Color/Odor/Taste:** Whole: orange-yellow rhizomes. Powder: bright yellow-orange. Earthy, peppery aroma; earthy, mildly pungent, slightly bitter taste.
- **Moisture Content:** ≤ 10% (powder), ≤ 12% (whole)
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place (<25°C) to prevent color fading. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Curcuminoid content (HPLC, standard 2-5%, high-grade >5%), pesticide residues, heavy metals (especially lead chromate), microbial count, aflatoxins.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09103000

## Packaging Options (Flexible & Custom)

- **Bulk:** 25/50 kg bags or boxes. For powder, lined bags are essential.
- **Retail:** 100g/250g/500g pouches, jars, or tins. Often sold with black pepper (piperine) for enhanced absorption.
- **Private Label:** The most sought-after spice for private-label wellness brands. Available as standard powder or high-curcumin "Golden Turmeric."
- **Compliance:** Must be packaged in light-resistant materials to preserve color.

## Origin & Sustainability

- 100% sourced from certified organic farms in Telangana, Tamil Nadu, and other regions.
- Promotes sustainable farming and soil health.
- Full traceability ensures freedom from adulterants like lead chromate.

# Marigold (*Calendula officinalis*)

## Product Description

Damodarr Global Venture LLP presents vibrant, sun-dried Marigold (*Calendula*) petals, sourced from pesticide-free farms in India. Renowned for their brilliant orange color and soothing properties, these petals are rich in flavonoids and carotenoids. A staple in herbal skincare and wellness, they are globally demanded for their gentle anti-inflammatory, wound-healing, and skin-soothing effects. Perfect for infusions in oils, creams, salves, and herbal teas, Marigold is a beloved ingredient in natural cosmetic formulations and gentle herbal remedies.

## Key Benefits & Applications

- **Cosmetic/Personal Care:** Soothing agent for sensitive skin, diaper rash creams, lip balms, and healing salves for minor cuts/burns.
- **Wellness/Herbal Teas:** Used in digestive and lymphatic tea blends.
- **Food:** Historically used as a "poor man's saffron" for color.
- **Traditional Medicine:** Topical herb for wounds, inflammation, and skin irritations.

## Specifications

- **Botanical Name:** *Calendula officinalis*
- **Part Used:** Petals
- **Form Available:** Whole Dried Petals, Cut & Sifted
- **Appearance/Color/Odor/Taste:** Vibrant orange to yellow whole petals; mild, characteristic floral odor; slightly bitter, tangy taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place to preserve color. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Pesticide residues, heavy metals, microbial count, color retention.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/20 kg cartons or bags (carefully packed to avoid crushing).
- **Retail:** 20g/50g clear cellophane bags or glass jars to showcase color.
- **Private Label:** Ideal for natural cosmetic brands and herbal tea companies.
- **Compliance:** Packaging should protect from physical damage and light.

## Origin & Sustainability

- 100% sourced from dedicated organic flower farms in India.
- Grown without synthetic chemicals, supporting pollinator health.
- Ethically harvested, providing income for flower growers.

# Red Rose (Rosa centifolia)

## Product Description

Our Red Rose petals are meticulously hand-picked from fragrant Rosa centifolia bushes grown in the pristine valleys of India. Shade-dried to preserve their deep red color, delicate texture, and romantic aroma, they are rich in polyphenols and essential oils. A symbol of beauty and love, these petals are globally cherished for gourmet culinary applications, luxurious herbal teas, natural cosmetic infusions, and decorative purposes. They cater to the premium segment of the food, beverage, and wellness industries.

## Key Benefits & Applications

- **Food & Beverage:** Flavoring and natural color for syrups, jams, desserts, and premium herbal teas.
- **Cosmetic:** Infused in oils, creams, and toners for their soothing, astringent, and aromatic properties.
- **Wellness/Herbal Tea:** Used in emotional wellness and heart-opening tea blends.
- **Decorative:** For potpourri, weddings, and religious ceremonies.

## Specifications

- **Botanical Name:** Rosa centifolia
- **Part Used:** Petals
- **Form Available:** Whole Dried Petals
- **Appearance/Color/Odor/Taste:** Deep red, whole petals; delicate, characteristic rose aroma; subtle, floral, slightly astringent taste.
- **Moisture Content:**  $\leq 12\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Pesticide residues, heavy metals, microbial count, sulfur dioxide (if unsulfured).
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 5/10 kg vacuum-sealed bags to preserve aroma and prevent crushing.
- **Retail:** 10g/25g elegant glass bottles or foil pouches.
- **Private Label:** Premium ingredient for gourmet food, luxury tea, and high-end cosmetic brands.
- **Compliance:** Requires superior barrier packaging to retain fragrance.

## Origin & Sustainability

- 100% sourced from certified organic rose gardens in India.
- Ethically harvested by hand, supporting skilled labor.
- Sustainable water management practices are used.

# Pink Rose (*Rosa damascena*)

## Product Description

Damodarr Global Venture LLP offers precious Pink Damask Rose petals, the variety most prized for its intense, complex fragrance and high essential oil content, cultivated in India's famed rose regions. These carefully dried petals are the heart of traditional rose water and attar production. Sought after globally by perfumers, natural cosmetic formulators, and gourmet chefs, they impart an unparalleled aromatic profile to teas, confections, skincare products, and spiritual practices, representing the pinnacle of floral luxury.

## Key Benefits & Applications

- **Cosmetic/Perfumery:** Primary material for rose hydrosol (water), infused oils, and natural fragrances.
- **Food & Beverage:** Premium flavoring for Turkish delight, baklava, rose syrups, and specialty teas.
- **Wellness/Aromatherapy:** Used for emotional balance, stress relief, and heart-opening practices.
- **Traditional/Spiritual:** Used in religious offerings and ceremonies.

## Specifications

- **Botanical Name:** *Rosa damascena*
- **Part Used:** Petals
- **Form Available:** Whole Dried Petals
- **Appearance/Color/Odor/Taste:** Pink, whole petals; exceptionally rich, deep, true rose aroma; delicate floral taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place, ideally vacuum-sealed. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Pesticide residues, heavy metals, microbial count, essential oil yield potential.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

•  
HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg vacuum-sealed aluminum bags (critical for aroma).
- **Retail:** Small (5g/10g) premium glass vials or jars.
- **Private Label:** Ultimate luxury ingredient for niche perfumery and cosmetic brands.
- **Compliance:** Requires the highest level of aroma-proof, moisture-proof packaging.

## Origin & Sustainability

- 100% sourced from traditional Damask rose-growing regions in India.
- Hand-picked at dawn to capture peak fragrance.
- Supports centuries-old farming traditions and artisan distillers.

# Safflower (Carthamus tinctorius)

## Product Description

Our Safflower petals, sourced from dedicated farms in India, offer a vibrant, economical natural coloring alternative to saffron. These dried petals impart a beautiful yellow to deep orange-red hue depending on the extraction method. Beyond coloring, they are used in Traditional Chinese Medicine for supporting cardiovascular health. A versatile botanical, they are in global demand as a natural food colorant, a dye for textiles, and an ingredient in herbal teas promoting circulation, offering both visual appeal and functional benefits.

## Key Benefits & Applications

- **Food & Beverage:** Natural food colorant for rice, soups, cheeses, and baked goods (as "American saffron").
- **Wellness/Herbal Tea:** Used in Traditional Chinese Medicine (Hong Hua) teas for menstrual comfort and circulation.
- **Textile Industry:** Natural dye for fabrics.
- **Cosmetic:** Can be used for coloring soaps and creams.

## Specifications

- **Botanical Name:** Carthamus tinctorius
- **Part Used:** Petals (Florets)
- **Form Available:** Whole Dried Petals, Powder
- **Appearance/Color/Odor/Taste:** Red to orange tubular petals; slight, characteristic odor; mildly bitter taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place to preserve color. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Color value (spectrophotometry), pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/20 kg cartons or bags.
- **Retail:** 50g/100g pouches.
- **Private Label:** For natural food coloring companies and herbal tea blenders.
- **Compliance:** Packaging must protect from light to prevent color fading.

## Origin & Sustainability

- 100% sourced from organic Safflower farms in India.
- Drought-resistant crop, promoting sustainable agriculture in arid regions.
- Supports local farming communities.

# Blue Cornflower (Centaurea cyanus)

## Product Description

Damodarr Global Venture LLP presents delicate Blue Cornflower petals, a non-toxic and vividly colored botanical sourced from clean European-style cultivations in India. These petals retain their striking blue hue when dried and are completely edible. Prized for their visual appeal in herbal tea blends (where they are known as "Bachelor's Button"), they add a pop of natural blue color to potpourris, cosmetic formulations, and gourmet dishes. Their gentle, soothing properties also make them a traditional eye compress herb, driving demand in the wellness and decorative botanicals market.

## Key Benefits & Applications

- **Food & Beverage:** Primary use is as a natural decorative element in herbal tea blends (e.g., Lady Grey tea).
- **Cosmetic:** Natural colorant for bath bombs, soaps, and eye compresses for tired eyes.
- **Decorative:** Used in potpourri, dried flower arrangements, and wedding confetti.
- **Traditional Medicine:** Mild eyewash for irritation.

## Specifications

- **Botanical Name:** Centaurea cyanus
- **Part Used:** Petals (Ray Florets)
- **Form Available:** Whole Dried Petals
- **Appearance/Color/Odor/Taste:** Brilliant blue, whole petals; very faint, floral odor; virtually tasteless.
- **Moisture Content:**  $\leq 12\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place to prevent color fading. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Pesticide residues, heavy metals, microbial count, colorfastness.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg bags (carefully packed to avoid crushing).
- **Retail:** 10g/20g clear cellophane bags or small glass vials.
- **Private Label:** Perfect for premium tea companies and natural cosmetic brands.
- **Compliance:** Packaging must protect delicate petals from breakage.

## Origin & Sustainability

- 100% sourced from specialized organic flower farms in India.
- Grown without pesticides, safe for decorative and internal use.
- Sustainably cultivated, supporting biodiversity.

# Butterfly Pea (Clitoria ternatea)

## Product Description

Our Butterfly Pea flowers are hand-picked and shade-dried in India to preserve their stunning deep blue color, derived from antioxidant-rich anthocyanins (ternatins). This magical flower is famous for its pH-reactive properties, changing color from blue to purple with the addition of citrus. A global sensation in the functional beverage and mixology world, it is used to create visually stunning, caffeine-free teas, cocktails, and natural food colorants. Its nootropic and antioxidant properties further fuel demand in the wellness sector.

## Key Benefits & Applications

- **Beverage/Mixology:** Creates visually striking, color-changing herbal teas, lemonades, cocktails, and tonics.
- **Food:** Natural blue food coloring for rice, desserts, and noodles.
- **Wellness/Nootropic:** Traditionally used for cognitive enhancement and as an antioxidant.
- **Cosmetic:** Used in hair oils and shampoos for its purported hair darkening and strengthening benefits.

## Specifications

- **Botanical Name:** Clitoria ternatea
- **Part Used:** Flower (Whole)
- **Form Available:** Whole Dried Flowers, Powder
- **Appearance/Color/Odor/Taste:** Whole, trumpet-shaped dark blue flowers; very mild, earthy odor; mild, earthy, bean-like taste.
- **Moisture Content:**  $\leq 12\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place to preserve color. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Anthocyanin content, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 500g/1kg vacuum-sealed bags.
- **Retail:** 20g/50g attractive, clear packaging to showcase color.
- **Private Label:** Highly popular for functional beverage brands and cocktail mix companies.
- **Compliance:** Must be protected from moisture and light to retain color magic.

## Origin & Sustainability

- 100% sourced from organic cultivations in South India.
- Promotes sustainable agroforestry.
- Ethically harvested, supporting smallholder farmers.

# Mallow (Malva sylvestris)

## Product Description

Damodarr Global Venture LLP offers delicate Mallow flowers and leaves, foraged from clean, wild areas and organic farms in India. This gentle, mucilaginous herb has been used for centuries to soothe irritated membranes in the throat and digestive tract. Its high mucilage content gives it a softening, demulcent quality. Increasingly popular in organic herbalism and cosmetic formulations, it is ideal for creating soothing throat teas, calming skin creams, and hair rinses for dry, sensitive conditions, catering to the demand for gentle, effective botanicals.

## Key Benefits & Applications

- **Wellness/Herbal Tea:** Soothing demulcent for dry coughs, sore throats, and gastritis.
- **Cosmetic:** Emollient and soothing agent in creams, lotions, and shampoos for sensitive or dry skin/hair.
- **Traditional Medicine:** A classic "simple" for inflammation of mucous membranes.
- **Culinary:** Young leaves are edible in salads.

## Specifications

- **Botanical Name:** Malva sylvestris
- **Part Used:** Flower, Leaf
- **Form Available:** Cut & Sifted (Flower/Leaf mix)
- **Appearance/Color/Odor/Taste:** Purple flowers mixed with green leaf pieces; faint, pleasant odor; mild, slightly sweet, mucilaginous (slimy) texture when infused.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI.
- **Testing Parameters:** Pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/20 kg paper bags.
- **Retail:** 50g/100g pouches for tea.
- **Private Label:** Excellent for "soothing throat" or "calming skin" tea and cosmetic blends.
- **Compliance:** Standard herbal packaging.

## Origin & Sustainability

- 100% sourced from sustainable wild collections and organic farms.
- Foraged with care to ensure regrowth.
- Supports local gatherers practicing sustainable harvesting.

# Chamomile (*Matricaria chamomilla*)

## Product Description

Our Chamomile consists of premium, whole German Chamomile flower heads, cultivated in the ideal climates of India. Carefully dried to preserve their high levels of apigenin, bisabolol, and chamazulene, these fragrant flowers are the global gold standard for relaxation and gentle digestion. The sweet, apple-like aroma and flavor make it the world's most consumed herbal tea. Its demand spans the wellness, cosmetic, and food industries for sleep aids, calming skincare, and functional beverages promoting tranquility and digestive ease.

## Key Benefits & Applications

- **Wellness/Herbal Tea:** Renowned gentle sedative for sleep and anxiety, digestive relaxant, and anti-inflammatory.
- **Cosmetic:** Soothing, anti-irritant ingredient in creams, lotions, and baby care products.
- **Food & Beverage:** Base for a vast range of relaxation-focused herbal teas and infusions.
- **Traditional Medicine:** Used for insomnia, teething pain, and digestive spasms.

## Specifications

- **Botanical Name:** *Matricaria chamomilla* (German Chamomile)
- **Part Used:** Flower Head
- **Form Available:** Whole Flowers, Cut & Sifted
- **Appearance/Color/Odor/Taste:** Whole, small daisy-like flowers with white petals and yellow center; strong, sweet, apple-like aroma; sweet, floral, slightly bitter taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place. Keep container tightly sealed to preserve volatile oils.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Essential oil content, apigenin levels, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/20 kg cartons or foil-lined bags.
- **Retail:** 50g/100g tea bags, pouches, or tins.
- **Private Label:** The single most important herb for any tea company's relaxation line.
- **Compliance:** Aroma-proof packaging is essential.

## Origin & Sustainability

- 100% sourced from certified organic farms in India.
- Sustainably cultivated, supporting soil health.
- Traceable from field to cup.

# Hibiscus (Hibiscus sabdariffa)

## Product Description

Damodarr Global Venture LLP presents vibrant, sun-dried Hibiscus calyces (sepals), sourced from tropical regions of India. These deep red, tart flowers are rich in vitamin C, anthocyanins, and organic acids. A global favorite for its refreshing, cranberry-like flavor and stunning color, it is the base for the popular "Agua de Jamaica" and numerous herbal teas. Its demand is driven by the functional beverage sector for its antioxidant properties, potential to support healthy blood pressure, and as a natural, vibrant red food colorant.

## Key Benefits & Applications

- **Beverage:** Primary ingredient in hibiscus iced tea, herbal tea blends, and refreshing cold infusions.
- **Wellness/Nutraceutical:** Antioxidant, supports healthy blood pressure, and provides vitamin C.
- **Food:** Natural red food coloring for jams, syrups, and desserts.
- **Cosmetic:** Used in hair rinses for shine and in skincare for its astringent properties.

## Specifications

- **Botanical Name:** Hibiscus sabdariffa
- **Part Used:** Calyx (Sepals)
- **Form Available:** Whole Dried Calyces, Cut & Sifted, Powder
- **Appearance/Color/Odor/Taste:** Deep red, fleshy calyces; characteristic fruity, tart odor; tart, acidic, cranberry-like taste.
- **Moisture Content:** ≤ 12%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Anthocyanin content, organic acids, pesticide residues, heavy metals, microbial count.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 12119099

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg cartons or bags.
- **Retail:** 100g/250g resealable pouches (popular for tea).
- **Private Label:** Staple for functional beverage and tea companies.
- **Compliance:** Standard food-grade packaging.

## Origin & Sustainability

- 100% sourced from organic farms in India.
- Supports sustainable agriculture in tropical regions.
- Ethically sourced from farmer cooperatives.

# Golden Turmeric Powder

## Product Description

Damodarr Global Venture LLP Golden Turmeric Powder is a premium-grade, specially selected variety of *Curcuma longa*, cultivated in India for exceptionally high curcuminoid content (typically >5%). This vibrant golden powder offers intensified anti-inflammatory and antioxidant potency compared to standard turmeric. It is the ideal ingredient for high-efficacy nutraceuticals, "golden milk" latte blends, and cosmetic formulations where maximum bioactive delivery is required. It meets the growing global demand for standardized, potent herbal ingredients in the wellness and functional food space.

## Key Benefits & Applications

- **Wellness/Nutraceutical:** High-potency formulations for joint health, cognitive support, and systemic antioxidant protection.
- **Food & Beverage:** Key ingredient in premium golden latte mixes, functional beverages, and health shots.
- **Cosmetic:** Active in anti-aging serums, brightening masks, and creams for its potent antioxidant properties.
- **Sports Nutrition:** For post-exercise recovery formulations.

## Specifications

- **Botanical Name:** *Curcuma longa*
- **Part Used:** Rhizome
- **Form Available:** Fine Powder
- **Appearance/Color/Odor/Taste:** Vibrant, deep golden-yellow powder; characteristic earthy, peppery aroma; earthy, pungent taste.
- **Moisture Content:** ≤ 10%
- **Shelf Life:** 24 months when stored properly.
- **Shelf Life:** Store in a cool, dry, dark place (<25°C) to prevent color fading. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI, Non-GMO.
- **Testing Parameters:** Curcuminoid content min. 5% (HPLC), heavy metals (especially lead chromate), pesticides, microbials, aflatoxins.
- **Certificate of Analysis (COA):** Provided with every shipment and available upon request.

HSN Code: 09103000

## Packaging Options (Flexible & Custom)

- **Bulk:** 25 kg foil-lined, multi-layer bags to protect from light and moisture.
- **Retail:** 100g/250g stand-up pouches or jars with light barriers.
- **Private Label:** Premium offering for brands marketing high-efficacy turmeric products.
- **Compliance:** Light-resistant packaging is non-negotiable to maintain potency and color.

## Origin & Sustainability

- 100% sourced from selected organic farms in India specializing in high-curcumin varieties.
- Grown using sustainable practices that enhance soil vitality.
- Fully traceable, with guaranteed purity and potency.

# Turmeric Ashwagandha Latte Blend

## Product Description

A expertly crafted, ready-to-use functional beverage blend combining the anti-inflammatory power of Golden Turmeric with the adaptogenic strength of Ashwagandha. Enhanced with warming spices like cinnamon, ginger, and a hint of black pepper (for piperine-boosted absorption), this dairy-free powder mix creates a soothing "Golden Milk" latte that supports joint comfort, stress resilience, and restful sleep. Sweetened naturally with coconut sugar or left unsweetened, it caters to the global trend of convenient, holistic nighttime rituals and daily wellness tonics.

## Key Benefits & Applications

- **Wellness Beverage:** Convenient adaptogenic drink for stress relief, evening relaxation, and supporting joint/muscle recovery.
- **Retail Product:** Ready-to-market latte mix for health food stores and cafes.
- **Private Label:** Turnkey solution for brands entering the functional beverage market.
- **Food Service:** Easy-prep beverage for wellness-focused cafes and spas.

## Specifications

- **Botanical Name:** Blend of Curcuma longa, Withania somnifera, etc.
- **Part Used:** N/A (Processed Blend)
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Golden-brown powder; aromatic, spicy, earthy aroma; warm, spicy, slightly sweet or earthy depending on sweetener.
- **Moisture Content:**  $\leq 5\%$
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place ( $<25^{\circ}\text{C}$ ). Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI. Allergen-free (vegan, gluten-free).
- **Testing Parameters:** Curcuminoid & withanolide markers, microbial count, heavy metals, consistent blend analysis.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg foil-lined bags for repackaging.
- **Retail:** 200g/300g attractive stand-up pouches with branding, or single-serve stick packs (20g).
- **Private Label:** Full white-label service. We design and manufacture to your brand specifications.
- **Compliance:** High-barrier, moisture-proof packaging is essential.

## Origin & Sustainability

- 100% blended in our certified facility in India from organic ingredients.
- Supports sustainable farming of all component herbs and spices.
- Ethically sourced and processed.

# Turmeric Moringa Latte Blend

## Product Description

This innovative superfood latte blend marries the anti-inflammatory benefits of **Golden Turmeric** with the dense nutritional profile of **Moringa leaf powder**. Accented with cinnamon, cardamom, and ginger, it offers a vibrant green-gold hue and a flavor that is both earthy and invigorating. Designed for morning vitality or an afternoon boost, it provides antioxidants, essential nutrients, and natural energy. This blend taps into the growing demand for nutrient-dense, plant-based functional beverages that support daily energy and overall wellness.

## Key Benefits & Applications

- **Wellness Beverage:** Nutrient-packed morning or afternoon drink for sustained energy, immune support, and antioxidant intake.
- **Retail Product:** Eye-catching superfood latte mix for the health-conscious consumer.
- **Private Label:** Unique blend for brands differentiating in the crowded latte market.
- **Functional Food:** Can be added to smoothies or oatmeal.

## Specifications

- **Botanical Name:** Blend of *Curcuma longa*, *Moringa oleifera*, etc.
- **Part Used:** N/A (Processed Blend)
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Greenish-gold powder; fresh, spicy, vegetal aroma; earthy, slightly bitter, spicy taste (often sweetened).
- **Moisture Content:**  $\leq 5\%$
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place ( $<25^{\circ}\text{C}$ ). Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI. Vegan, Gluten-Free.
- **Testing Parameters:** Curcuminoid & chlorophyll content, microbials, heavy metals, blend consistency.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg foil-lined bags.
- **Retail:** 200g/300g pouches with vibrant, natural branding.
- **Private Label:** Full custom formulation and branding available.
- **Compliance:** Oxygen and moisture barriers needed to protect moringa's color and nutrients.

## Origin & Sustainability

- 100% blended in India from certified organic ingredients.
- Promotes the cultivation of sustainable superfoods.
- Ethically sourced supply chain.

# Matcha Moringa Latte Blend

## Product Description

A unique fusion of East and West, this blend combines the calm, focused energy of ceremonial-grade **Japanese Matcha** green tea with the nutrient powerhouse **Moringa**. The result is a vibrant green powder that delivers a smooth, umami-rich flavor with a nutritional boost of vitamins, minerals, and chlorophyll. It provides a cleaner, more sustained caffeine lift than coffee, along with antioxidants and plant-based nutrition. This blend meets the demand for innovative, health-forward alternatives to coffee and traditional energy drinks.

## Key Benefits & Applications

- **Functional Beverage:** Provides focused energy without jitters, supports metabolism, and delivers a spectrum of nutrients.
- **Retail Product:** Premium latte mix for matcha lovers and health enthusiasts.
- **Private Label:** High-value product for cafes and wellness brands.
- **Sports Nutrition:** Pre-workout or recovery drink component.

## Specifications

- **Botanical Name:** Blend of *Camellia sinensis*, *Moringa oleifera*
- **Part Used:** N/A (Processed Blend)
- **Form Available:** Fine, vibrant green powder
- **Appearance/Color/Odor/Taste:** Bright green powder; fresh, grassy, umami aroma; smooth, vegetal, slightly bitter/sweet umami taste.
- **Moisture Content:** ≤ 5%
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place. Refrigeration after opening is recommended for matcha blends.

## Quality & Testing

- **Certifications Available:** USDA Organic (for Moringa), JAS Organic (for Matcha), FSSAI.
- **Testing Parameters:** Caffeine content, chlorophyll, microbials, heavy metals (esp. for matcha), blend uniformity.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1 kg vacuum-sealed, light-proof bags.
- **Retail:** 100g/150g tins or opaque, resealable pouches with oxygen absorbers.
- **Private Label:** Luxury positioning with premium packaging requirements.
- **Compliance:** Must be light-proof, air-tight, and moisture-proof to preserve matcha's delicate color and flavor.

## Origin & Sustainability

- Moringa is 100% sourced from our organic Indian farms. Matcha is sourced from certified Japanese partners.
- Emphasis on sustainable tea farming and moringa agroforestry.
- Transparent and ethical sourcing for both components.

# Super Green Blends

## Product Description

Damodarr Global Venture LLP Super Green Blends are potent, alkalizing formulations designed to deliver a concentrated dose of chlorophyll, vitamins, and minerals from the earth's most nutrient-dense plants. Our signature blends may include organic **Moringa, Spirulina, Chlorella, Wheatgrass, Barley Grass, and Alfalfa**, carefully balanced for optimal nutrition and a pleasant taste profile. These powders are the ultimate daily wellness hack for detoxification, energy, and filling nutritional gaps, perfectly aligned with the global superfood and clean-eating movement.

## Key Benefits & Applications

- **Daily Wellness/Nutrition:** Comprehensive vitamin/mineral supplement, powerful detoxification and alkalizing agent, energy booster.
- **Smoothie Enhancer:** Easy way to add a potent green boost to smoothies and juices.
- **Retail Product:** Core SKU for superfood and wellness brands.
- **Athletic Nutrition:** Supports recovery and overall vitality for athletes.

## Specifications

- **Botanical Name:** Blend of various species (e.g., *Moringa oleifera*, *Arthrospira platensis*)
- **Part Used:** N/A (Processed Blend)
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Deep green powder; fresh, grassy, marine (if with algae) aroma; strong, vegetal taste (often masked in smoothies).
- **Moisture Content:** ≤ 5%
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C). Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI, Non-GMO. Vegan.
- **Testing Parameters:** Chlorophyll content, protein, heavy metals (critical for algae), microbial count, pesticide residues.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg foil-lined, opaque bags.
- **Retail:** 200g/500g tubs or pouches with scoops.
- **Private Label:** Our specialty. We develop custom green blends based on your nutritional and flavor targets.
- **Compliance:** Requires robust barriers to protect sensitive nutrients from oxidation.

## Origin & Sustainability

- Blended in India from globally sourced, certified organic ingredients.
- We prioritize sustainable and ethical sources for all components, especially algae.
- Full traceability and quality control for each ingredient.

# Natural Energy Blends

## Product Description

Our Natural Energy Blends offer a clean, sustained lift without the crash of synthetic stimulants or excessive caffeine. These smart formulations combine adaptogens like **Ashwagandha** or **Rhodiola** for stress resilience, superfoods like **Maca** for endurance, and natural caffeine sources like **Guayusa** or **Green Tea** in balanced amounts. Often enhanced with **Schisandra** and **Ginger**, they support mental clarity, physical stamina, and adrenal health. This category responds to the global demand for holistic energy solutions that support the body's systems rather than depleting them.

## Key Benefits & Applications

- **Wellness/Performance:** Supports sustained physical and mental energy, adrenal health, and focus.
- **Functional Beverage:** Base for "energy" latte mixes, pre-workout drinks, or morning tonics.
- **Retail/Private Label:** Growing category for supplement and functional food brands.
- **Alternative to Coffee:** For those seeking reduced caffeine or different functional benefits.

## Specifications

- **Botanical Name:** Proprietary blend of adaptogens and superfoods.
- **Part Used:** N/A (Processed Blend)
- **Form Available:** Fine powder
- **Appearance/Color/Odor/Taste:** Varies by blend (brown, beige, etc.); earthy, spicy, sometimes malty (maca) aroma; complex, often earthy/bitter flavor (sweetening recommended).
- **Moisture Content:** ≤ 5%
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<25°C). Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI. Vegan, Gluten-Free.
- **Testing Parameters:** Caffeine content (if applicable), marker compounds for key ingredients (e.g., macamides), microbials, heavy metals.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg bags.
- **Retail:** 200g pouches or single-serve packets.
- **Private Label:** We excel at creating custom energy formulations for specific demographics (e.g., athletes, students, professionals).
- **Compliance:** Standard functional powder packaging.

## Origin & Sustainability

- Blended in India from ethically sourced, organic global botanicals.
- Commitment to sustainable sourcing of adaptogens, many of which are wild-harvested.
- Transparent about ingredient origins and potency.

# Berry Blends

## Product Description

Damodarr Global Venture LLP Berry Blends are vibrant, antioxidant-rich powders combining the finest freeze-dried or low-temperature dried berries such as **Acai, Blueberry, Raspberry, Strawberry, and Goji**. These blends capture the full spectrum of anthocyanins, vitamins, and polyphenols found in fresh berries, delivering a tart, fruity flavor and a stunning purple-red color. Ideal for functional smoothies, nutritional supplements, and healthy snack coatings, they cater to the booming demand for delicious, visually appealing, and health-promoting superfruit ingredients.

## Key Benefits & Applications

- **Antioxidant Support:** High ORAC value for combating oxidative stress and supporting skin/cellular health.
- **Food & Beverage:** Natural coloring and flavoring for smoothies, yogurts, ice creams, and health bars.
- **Nutraceutical:** Added to antioxidant or skin-health supplement formulas.
- **Retail:** Standalone superfruit powder or part of antioxidant blends.

## Specifications

- **Botanical Name:** Blend of various Vaccinium, Rubus, etc. species.
- **Part Used:** Fruit
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Purple to deep red powder; intense, fruity berry aroma; tart, sweet, characteristic berry flavor.
- **Moisture Content:**  $\leq 5\%$  (freeze-dried)
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, FSSAI, Non-GMO.
- **Testing Parameters:** Anthocyanin content (HPLC), vitamin C, microbial count, pesticide residues, color retention.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 08129000 or 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg foil-lined, light-proof bags.
- **Retail:** 100g/200g vibrant pouches.
- **Private Label:** Excellent for smoothie brands, superfood companies, and functional confectionery.
- **Compliance:** Requires protection from light, moisture, and oxygen to preserve color and nutrients.

## Origin & Sustainability

- Sourced from global organic berry producers and processed in India.
- We prioritize suppliers using sustainable farming and ethical labor practices.
- Low-temperature processing preserves delicate phytonutrients.

# Mushroom Blend

## Product Description

Our functional Mushroom Blend harnesses the power of adaptogenic and medicinal mushrooms, using extracted fruiting body powders (not myceliated grain) for maximum bioactive compound delivery. This proprietary blend typically includes revered mushrooms like **Reishi (calming)**, **Lion's Mane (cognitive)**, **Chaga (antioxidant)**, and **Cordyceps (energy)**. Designed to support immunity, cognitive function, and overall resilience, this neutral-tasting powder easily blends into coffee, hot cocoa, soups, or smoothies, meeting the explosive global demand for mushroom-based wellness products.

## Key Benefits & Applications

- **Immune & Adaptogenic Support:** Modulates immune function, reduces stress, and supports overall resilience.
- **Cognitive Health:** Lion's Mane is researched for supporting nerve growth factor (NGF).
- **Energy & Stamina:** Cordyceps is traditionally used for athletic performance.
- **Functional Food/Beverage:** "Mushroom coffee," lattes, broths, and supplement capsules.

## Specifications

- **Botanical Name:** Blend of various Ganoderma, Hericium, Inonotus, Cordyceps species.
- **Part Used:** Fruiting Body (Extracted)
- **Form Available:** Fine, soluble powder (extract)
- **Appearance/Color/Odor/Taste:** Light to dark brown powder; mild, earthy, mushroom aroma; very mild, earthy, umami taste.
- **Moisture Content:** ≤ 5%
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place. Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** Organic (where available), FSSAI, Vegan, Gluten-Free.
- **Testing Parameters:** Beta-glucan content (key marker), heavy metals, microbial count, pesticide residues. HPLC for specific triterpenes (Reishi) or hericenones (Lion's Mane).
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 21069099

## Packaging Options (Flexible & Custom)

- **Bulk:** 1/5 kg foil-lined bags.
- **Retail:** 60g/120g jars or pouches (small doses required due to potency).
- **Private Label:** High-growth category. We offer blends for focus, immunity, or overall adaptogenic support.
- **Compliance:** Moisture-proof packaging is critical.

## Origin & Sustainability

- Sourced from specialized cultivators in Asia and processed/extracted in GMP facilities.
- Emphasis on sustainably cultivated, biomass (fruiting body) extracts for purity and potency.
- Transparent about extraction methods (hot water, dual).

# Healthy Spice Blend

## Product Description

Damodarr Global Venture LLP Healthy Spice Blends are thoughtfully curated mixtures of organic Indian spices, designed to deliver both robust flavor and functional wellness benefits. These may include **Turmeric, Cinnamon, Ginger, Black Pepper, Cardamom, Clove, and Nutmeg** in balanced ratios. Beyond elevating culinary dishes, these blends offer anti-inflammatory, digestive, and antioxidant properties. They are perfect as "Everything" seasoning blends, chai spice bases, or baking mixes, catering to consumers seeking to enhance both the flavor and nutritional profile of their meals effortlessly.

## Key Benefits & Applications

- **Culinary:** Versatile seasoning for vegetables, meats, soups, stews, and roasted dishes.
- **Beverage:** Base for homemade chai, golden milk, or mulled cider.
- **Wellness:** Convenient way to incorporate multiple functional spices into the daily diet.
- **Retail/Private Label:** Attractive, value-added product for spice and wellness brands.

## Specifications

- **Botanical Name:** Blend of various spice species.
- **Part Used:** N/A (Processed Blend)
- **Form Available:** Coarse or fine powder
- **Appearance/Color/Odor/Taste:** Golden to brown powder; complex, warm, aromatic spice aroma; flavor profile varies by blend (e.g., sweet, savory, warming).
- **Moisture Content:**  $\leq 8\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place ( $<25^{\circ}\text{C}$ ). Keep container tightly sealed.

## Quality & Testing

- **Certifications Available:** USDA Organic, EU Organic, Kosher, Halal, FSSAI.
- **Testing Parameters:** Microbial count, pesticide residues, heavy metals, blend consistency.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 09109900

## Packaging Options (Flexible & Custom)

- **Bulk:** 5/10 kg bags or boxes.
- **Retail:** 100g/200g shaker jars or resealable pouches.
- **Private Label:** Ideal for custom culinary wellness blends. Create your signature mix.
- **Compliance:** Standard spice packaging with good aroma barriers.

## Origin & Sustainability

- 100% blended in India from our range of organic spices.
- Supports sustainable spice farming across the country.
- Reduces waste by creating value-added products from premium single ingredients.

# Turmeric Powder (Spray Dried)

## Product Description

Our Spray Dried Turmeric Powder is produced using advanced technology to create a highly soluble, free-flowing, and vibrant powder from fresh turmeric rhizome juice or oleoresin. This process yields a product with superior dispersion in water-based applications compared to conventionally dried powder. It offers consistent color (curcuminoid content) and a cleaner, more intense flavor profile. This form is ideal for the beverage, dairy, and instant food industries where solubility, rapid color release, and consistent blending are critical requirements.

## Key Benefits & Applications

- **Beverage Industry:** For instant drink mixes, functional waters, smoothies, and sports drinks where solubility is key.
- **Dairy & Ice Cream:** Provides consistent, non-gritty color and flavor.
- **Confectionery & Sauces:** For uniform coloring in products like mustard, cheese, and icings.
- **Nutraceuticals:** For effervescent tablets or quick-mix supplement powders.

## Specifications

- **Botanical Name:** Curcuma longa
- **Part Used:** Rhizome (extract/juice)
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Bright yellow, dust-free powder; clean, intense turmeric aroma; potent, earthy, pungent flavor.
- **Moisture Content:**  $\leq 5\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place in airtight containers.

## Quality & Testing

- **Certifications Available:** ISO 22000, FSSAI, GMP. Can be produced from organic source material.
- **Testing Parameters:** Curcuminoid content (standardized, e.g., 5-10%), solubility, bulk density, microbial count, heavy metals.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 09103000 or 13021930 (for extract)

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg food-grade HDPE drums or foil-lined boxes with polyethylene liners.
- **Retail:** Primarily a B2B ingredient; retail packaging possible for specialized applications.
- **Private Label:** Custom standardization and flavor masking available for specific applications.
- **Compliance:** Hygroscopic – requires exceptional moisture barrier.

## Origin & Sustainability

- Processed in our state-of-the-art spray-drying facility in India from Indian turmeric.
- Efficient process reduces waste and allows for precise standardization.
- Traceable from farm to processing plant.

# Ginger Powder (Spray Dried)

## Product Description

Damodarr Global Venture LLP Spray Dried Ginger Powder is manufactured from fresh ginger juice or extract, transforming it into a highly soluble, potent, and non-gritty powder. This advanced form delivers the full, sharp, and warming flavor of fresh ginger with instant solubility in cold or hot liquids. It is the preferred ingredient for the beverage, bakery, and convenience food industries seeking a consistent, high-impact ginger flavor without the processing challenges of fibrous raw powder, such as settling or uneven distribution.

## Key Benefits & Applications

- **Beverage Manufacturing:** For ginger ales, teas, instant drink mixes, and cocktail syrups where clear solubility is needed.
- **Bakery & Confectionery:** Provides consistent, intense ginger flavor in cakes, cookies, and candies.
- **Sauce & Soup Mixes:** For instant noodles, soup bases, and marinades.
- **Dietary Supplements:** For effervescent formulas or quick-mix wellness shots.

## Specifications

- **Botanical Name:** Zingiber officinale
- **Part Used:** Rhizome (extract/juice)
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Pale yellow to cream powder; sharp, pungent, fresh ginger aroma; intense, warming, spicy ginger taste.
- **Moisture Content:**  $\leq 5\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place in airtight containers.

## Quality & Testing

- **Certifications Available:** ISO 22000, FSSAI, GMP. Can be produced from organic ginger.
- **Testing Parameters:** Gingerol content (HPLC), pungency level (Scoville), solubility, microbial count.
- **Certificate of Analysis (COA):** Provided with every batch.

**HSN Code:** 09101010 or 13021930

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg HDPE drums or lined boxes.
- **Private Label:** Available with customized potency (gingerol levels) and solubility profiles.
- **Compliance:** Must be protected from moisture and caking.

## Origin & Sustainability

- Produced in our advanced facility in India from premium Indian ginger.
- Efficient extraction and drying process maximizes yield and minimizes waste.
- Consistent quality ensures reliable performance in industrial applications.

# Mango Pulp Powder (Spray Dried)

## Product Description

Our Spray Dried Mango Pulp Powder captures the quintessential tropical flavor and aroma of ripe Alphonso or Totapuri mangoes in a stable, soluble powder form. Produced from concentrated, pure mango pulp without artificial flavors or colors, it delivers a natural sweetness and vibrant color. This convenient ingredient is revolutionizing the food industry, allowing for the easy incorporation of real mango flavor into dry mix applications, reducing shipping costs, and extending shelf life compared to frozen pulp.

## Key Benefits & Applications

- **Beverage Industry:** For instant mango drink mixes, smoothies, milkshakes, and flavored milk powders.
- **Dairy & Ice Cream:** Flavouring for yogurts, ice creams, and probiotic drinks.
- **Bakery & Confectionery:** In fillings, glazes, desserts, and fruit snacks.
- **Baby Food & Cereals:** Natural fruit flavoring for instant porridges and snacks.

## Specifications

- **Botanical Name:** *Mangifera indica*
- **Part Used:** Fruit Pulp
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Creamy yellow to orange powder; intense, sweet, characteristic mango aroma; sweet, tangy, true mango flavor.
- **Moisture Content:** ≤ 4%
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place (<20°C recommended). Highly hygroscopic.

## Quality & Testing

- **Certifications Available:** ISO 22000, FSSAI, GMP, Halal. Can be produced from organic pulp.
- **Testing Parameters:** Solubility, bulk density, brix (total soluble solids) of source pulp, vitamin C, microbial count, pesticide residues.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 20089910

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg food-grade HDPE drums with thick polyethylene liners. **Vacuum or nitrogen flushing is recommended.**
- **Private Label:** Custom blends with other fruit powders or sweeteners available.
- **Compliance:** **Extreme moisture barrier is critical** due to high sugar content.

## Origin & Sustainability

- Processed in India from premium Indian mango varieties.
- Supports mango farmers and reduces post-harvest waste by processing surplus fruit.
- Advanced processing retains maximum natural flavor and nutrients.

# Beetroot Juice Powder (Spray Dried)

## Product Description

Damodarr Global Venture LLP Spray Dried Beetroot Juice Powder is a potent natural colorant and functional ingredient made from the juice of fresh, deep-red beetroots. This process concentrates the betalain pigments (betacyanins) and nitrates, resulting in a vibrant pink-to-red powder that is highly soluble. It provides a clean-label alternative to synthetic red colors (like Red 40) and is valued in the sports nutrition sector for its potential to support blood flow and endurance. Its earthy-sweet flavor is easily masked in formulations.

## Key Benefits & Applications

- **Natural Food Colorant:** Provides vibrant red/pink hues to beverages, frostings, yogurts, snacks, and meat alternatives.
- **Sports Nutrition:** Used in pre-workout formulas for dietary nitrate content, supporting vasodilation and oxygen efficiency.
- **Functional Beverages:** Added to health shots, smoothies, and juices for color and antioxidant benefits.
- **Nutraceuticals:** In supplements for blood pressure and detoxification support.

## Specifications

- **Botanical Name:** Beta vulgaris
- **Part Used:** Root (Juice)
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Deep pink to red powder; characteristic earthy beet odor; sweet, earthy taste.
- **Moisture Content:**  $\leq 5\%$
- **Shelf Life:** 24 months when stored properly.
- **Storage Conditions:** Store in a cool, dry, dark place to prevent color degradation.

## Quality & Testing

- **Certifications Available:** ISO 22000, FSSAI, GMP, Non-GMO. Can be organic.
- **Testing Parameters:** Betalain content (color value), nitrate content (if required for sports nutrition), microbial count, heavy metals (especially from soil).
- **Certificate of Analysis (COA):** Provided with every batch.

**HSN Code:** 20089990 or 12129990

## Packaging Options (Flexible & Custom)

- **Bulk:** 10/20 kg foil-lined, light-proof bags or drums.
- **Private Label:** Available with standardized betalain content for consistent coloring power.
- **Compliance:** Must be protected from light, moisture, and high heat to preserve color stability.

## Origin & Sustainability

- Produced in India from select beetroot varieties grown for high pigment content.
- Sustainable farming practices are encouraged.
- Efficient processing converts a perishable vegetable into a stable, versatile ingredient.

# Lemon Juice Powder (Spray Dried)

## Product Description

Our Spray Dried Lemon Juice Powder is produced from fresh, cold-pressed lemon juice, capturing its bright, tangy flavor and natural acidity in a stable, free-flowing form. It serves as a clean-label alternative to citric acid or liquid lemon juice, offering both flavor and functionality. With high solubility, it is perfect for dry mix applications where moisture control is crucial. This ingredient meets the demand for natural, convenient, and potent citrus flavors in the beverage, seasoning, and confectionery industries.

## Key Benefits & Applications

- **Seasoning Blends:** Provides tangy flavor in dry seasoning mixes for chips, noodles, and seafood.
- **Beverage Mixes:** Key ingredient in instant lemonade, electrolyte drinks, and iced tea powders.
- **Confectionery & Desserts:** Flavouring for candies, fillings, and dessert mixes.
- **Culinary:** Convenient souring agent for dry sauces, dressings, and marinade mixes.

## Specifications

- **Botanical Name:** Citrus limon
- **Part Used:** Fruit Juice
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Off-white to pale yellow powder; strong, fresh lemon aroma; tart, acidic, clean lemon flavor.
- **Moisture Content:**  $\leq 4\%$  (highly hygroscopic)
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place in **airtight, moisture-proof containers**.

## Quality & Testing

- **Certifications Available:** ISO 22000, FSSAI, GMP, Halal. Can be organic.
- **Testing Parameters:** Acidity (as citric acid), vitamin C content, solubility, microbial count.
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 20089910

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg HDPE drums with thick, sealed liners. **Nitrogen flushing is highly recommended.**
- **Private Label:** Can be blended with other citrus powders or anti-caking agents.
- **Compliance:** The highest level of moisture-proofing is required to prevent solidification.

## Origin & Sustainability

- Processed in India from Indian lemons.
- Reduces waste by utilizing juice that meets food-grade standards.
- Provides a shelf-stable alternative to perishable fresh lemons for industry.

# Pineapple Juice Powder (Spray Dried)

## Product Description

Damodarr Global Venture LLP Spray Dried Pineapple Juice Powder delivers the sweet, tropical taste and aroma of fresh pineapple in a highly soluble, convenient dry form. Produced from concentrated pineapple juice without added sugars or flavors, it retains natural sugars, acids, and subtle bromelain enzyme activity. This powder is ideal for instantly adding authentic pineapple flavor to beverages, dairy products, bakery fillings, and snack coatings, offering manufacturers consistency, ease of use, and a clean-label declaration.

## Key Benefits & Applications

- **Beverage Industry:** For instant pineapple drink mixes, smoothies, and flavored water enhancers.
- **Dairy & Ice Cream:** Flavouring for yogurts, ice cream, and cream cheeses.
- **Bakery & Confectionery:** In fruit fillings, glazes, gummies, and tropical candy blends.
- **Seasoning:** Can be used in sweet and savory dry rubs for a tropical twist.

## Specifications

- **Botanical Name:** Ananas comosus
- **Part Used:** Fruit Juice
- **Form Available:** Fine, free-flowing powder
- **Appearance/Color/Odor/Taste:** Creamy white to light yellow powder; sweet, characteristic pineapple aroma; sweet, tangy pineapple flavor.
- **Moisture Content:**  $\leq 4\%$
- **Shelf Life:** 18 months when stored properly.
- **Storage Conditions:** Store in a cool, dry place. Highly hygroscopic.

## Quality & Testing

- **Certifications Available:** ISO 22000, FSSAI, GMP, Halal. Can be organic.
- **Testing Parameters:** Solubility, brix, titratable acidity, microbial count, bromelain activity (if specified).
- **Certificate of Analysis (COA):** Provided with every batch.

HSN Code: 20089910

## Packaging Options (Flexible & Custom)

- **Bulk:** 20/25 kg HDPE drums with sealed polyethylene liners. **Nitrogen flushing recommended.**
- **Private Label:** Available in different flavor intensities (from juice concentrate).
- **Compliance:** Requires exceptional moisture barrier to prevent caking and flavor loss.

## Origin & Sustainability

- Produced in India from Indian pineapples.
- Supports local fruit processing and reduces seasonal waste.
- Provides a consistent, year-round supply of pineapple flavor.
